

KOPPERS

DIRECTIONS FOR USE

COMMERCIAL WOOD PRESERVATION: This product is suitable for commercial wood preservation to control against termites, wood destroying insects and decay fungi. This product is a 5% Pentachlorophenol solution in an AWWA P9, Type A Solvent, suitable for pressure or thermal treatment according to practices generally outlined in Commodity Standards of the American Wood-Preservers' Association (AWPA) and Federal Specifications TT-W-570 and TT-W-571. These practices include conditioning the wood by air seasoning, kiln drying, steaming or Boulton drying prior to treatment, followed by treatment in hot and cold baths of solution (thermal process) or pressure processes generally known as empty cell (Rueping or Lowry) treatment. The pressures, temperatures, times, minimum retentions and penetrations are specified by AWWA Commodity Standards.

WOOD PRESERVATION. For best results this product should be applied so as to effect maximum penetration into the wood and absorption especially at joints and wherever end grain exists. Open tank treatment or complete immersion of the wood in the solution is generally recommended for five minutes per inch of thickness. It should be noted that wood items for use in contact with ground, such as fence posts, will need maximum protection. Extend the treating time 12 to 48 hours. If they cannot be dipped, apply several heavy brush coats. Fence posts to be properly treated should be free of bark, dry and well seasoned.

For the protection of wood against termites, powder post beetles and decay, the treatment of wood prior to use is always to be recommended. Obtaining commercially pressure treated wood is the best assurance of thorough treatment, but immersion to get deep penetration and distribution of the preservative can impart a very measurable degree of protection.

Where such treating is impractical as in the case of an existing structure, two heavy brush applications of this product should be applied, cutting out and removing all unsound wood, two feet beyond any visible evidence of decay. (In the case of termite control, this would be supplemental treatment to the trenching or soil poison use of the product.) All wood should be normally dry, and the framing or cutting completed before treatment.

NOTICE

Avoid contamination of feed or foodstuffs. Do not reuse container. Return to drum reconditioner or destroy and bury in a safe place. Do not contaminate water by cleaning equipment or disposal of waste and containers. Treated sawdust and other wood wastes should not come in contact with domestic animals, or be used as mulch where it will come in contact with useful living plants.

WARNING

MAY BE FATAL IF SWALLOWED. HARMFUL IF INHALED OR ABSORBED THROUGH SKIN. CAUSES SKIN IRRITATION. MAY PRODUCE DELAYED CHEMICAL BURNS.

Do not breathe spray mist. Use only with adequate ventilation. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling.

Wear protective clothing and rubber gloves when handling the freshly treated lumber.

FIRST AID: If swallowed induce vomiting by sticking finger down throat or by giving soapy or strong salty water to drink. Repeat until vomit is clear. Call a physician. Never give anything by mouth to an unconscious person.

FIRST AID: In case of contact, wash skin with soap and water, for eyes, flush with water for at least 15 minutes and get medical attention.

NOTE TO PHYSICIAN: This product is a metabolic stimulant, causes hyperthermia. Treat symptomatically.

ENVIRONMENTAL CAUTIONS: This product is toxic to fish and wildlife. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

Vapors may cause injury if adequate ventilation is not insured. Do not use this product indoors, or any other confined areas, where the vapors may concentrate and cause injury to plant or animal life. Keep containers closed when not in use.

LIMIT OF WARRANTY AND LIABILITY

This company warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use. This product is sold subject to the understanding that the buyer assumes all risks of use or handling which may result in loss or damage which are beyond the control of the seller, such as for example incompatibility with other products and the manner of its use or application. NO OTHER EXPRESSED OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY IS MADE. The exclusive remedy of the buyer, and the limit of liability of this company or any other seller for any and all losses, injuries or damages resulting from the use or handling of this product shall be the purchase price paid by the user or buyer for the quantity of this product involved. The buyer and all users are deemed to have accepted the terms of this notice which may not be varied by any verbal or written agreement.
