INERT INGREDIENTS	97.73%
TOTAL	100.00%

*2.08% Technical Pentachlorophenol as defined in Fed. Spec. TT W 570

Net Contents U.S. Gallons (Liters)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This preservative is recognized as effective for above ground use, and not recommended for ground contact.

This clear oil solution has been developed for the protection of wood against fungus growths which cause rot and stain. It also contains water repellents to aid in the control of shrinking, swelling, end checking, grain raising and warping.

For the control of dimensional changes, shrinkage and swelling, the treatment of the end grain is most important since the moisture pick-up there is a hundred to a thousand times greater than at the flat or edge grain surface for many species of wood. For best results, this product should be applied so as to effect greater absorption at joints and wherever end grain exists. All wood should be normally dry, and the framing or cutting completed before application of this product

This product can be applied to millwork and other wood products by various methods including immersion, brushing, vacuum, pressure and flooding. This product will be effective only in the areas of the wood contacted by the solution. Therefore thoroughness of treatment is essential

ESTIMATED COVERAGE: 1 to 1 1/2 gallons per thousand board feet for open tank treatment; 200 square feet per gallon for brush application

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide, spray mixture, or rinsate that cannot be used or chemically reprocessed should be disposed of according to procedures approved by Federal, State or local disposal authorities

CONTAINER DISPOSAL: Triple rinse (or equivalent) and dispose of in an approved landfill or bury in a safe place

GENERAL: Consult Federal, State, or local disposal authorities for approved alternative procedures

LIMIT OF WARRANTY AND LIABILITY

This company warrants that this material conforms to the chemical description on the label and the directions for use. This product is sold subject to the understanding that the buyer will use it in accordance with the directions given herewith which are beyond the control of this company and the nature of its use or application. NO OTHER EXPRESSED OR IMPLIED WARRANTY IS MADE. The exclusive remedy of the buyer, and the limit of liability of this company or any agent, for any damage resulting from the use or handling of this product shall be the purchase price paid by the buyer. The buyer and all users are deemed to have accepted the terms of this notice which may be printed on the label.
