

FOR INDUSTRIAL, EXTERIOR USE ONLY
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Lumber should be treated within 24 hours after cutting. Freshly sprayed lumber should be protected from rain washing. Tanks should be covered with a roof to prevent the addition of rain water and consequent dilution of the solution.

Be sure that vats and spray equipment are cleaned regularly to remove sawdust and other debris.

Approved stacking practices should be employed with adequate space between boards and stacks. Green lumber or infected wood should not be used for stickers. The bottom of the stacks should be well above the ground with weeds and debris kept away from stacks.

MIXING INSTRUCTIONS — Put about 1/3 of the water to be used in the mixing tank. Add the correct amount of this product and rinse container into the tank. Add the balance of water needed and mix thoroughly.

DIP TREATMENT — For lumber 2" or less in thickness, use 1 gallon for every 100 gallons of water. Lumber should be totally immersed to insure all surfaces are treated. For lumber thicker than 2" or where severe season conditions will be encountered, use double strength solution.

SPRAY TREATMENT — Less solution is applied to wood by spraying than is the case with dipping. To insure adequate treatment use double strength solution.

Spray all lumber surfaces.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to Federal or approved state procedures under Subtitle C of the Resource Conservation and Recovery Act.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures.

LIMIT OF WARRANTY AND LIABILITY

This company warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use. This product is sold subject to the understanding that the buyer assumes all risks of use or handling of this material not in strict accordance with the directions given here with which are beyond the control of the seller, such as for example, incompatibility with other products and the manner of its use or application. NO OTHER EXPRESSED OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY IS MADE. The exclusive remedy of the buyer, and the limit of liability of this company or any other seller, for any and all losses, injuries or damages resulting from the use or handling of this product shall be the purchase price paid by the user or buyer for the quantity of this product involved. The buyer and user are deemed to have accepted the terms of this notice which may not be varied by any verbal or written agreement.

KOPPERS

LIQUID NOXTANE® SS2 wood fungicide

For control of sapstain and mold on freshly cut species of lumber, including Douglas Fir, White Fir, Southern Yellow and Western Pines, and Hemlock.

KEEP OUT OF REACH OF CHILDREN

WARNING

See side panel for first aid and additional precautionary statements

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

MAY BE FATAL IF SWALLOWED, INHALED OR ABSORBED THROUGH SKIN. CAUSES SKIN AND EYE IRRITATION. MAY CAUSE DELAYED CHEMICAL BURNS.

Do not get in eyes, on skin or on clothing. Use of goggles and protective clothing is recommended when spraying or dipping, and use of an approved respirator when appropriate. Avoid prolonged and/or repeated breathing of vapors, mist or substantially saturated atmosphere. Use only in well ventilated areas. Not for use or storage in or around the home. Keep containers closed when not in use. Do not take internally.

FIRST AID: If swallowed, call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled, remove to fresh air.

In case of eye contact, flush immediately with plenty of water for 15 minutes and get medical attention. For skin contact, wash thoroughly with soap and water. Remove contaminated clothing and shoes. Wash clothes before reuse.

NOTE TO PHYSICIAN: Tetrachlorophenol in this product is a metabolic stimulant. Treat symptomatically.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply directly to lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

This product is toxic to domestic animals. Treated sawdust and other wood wastes should not come in contact with domestic animals or be used as mulch where it will come in contact with useful living plants. Care should be taken to prevent drip or spray from contacting ornamental shrubs, trees, grass and other desirable vegetation.

Vapors may cause injury if adequate ventilation is not insured. Do not use this product indoors, or any other confined areas, where the vapors may concentrate or migrate indoors and cause injury to plant or animal life.

PHYSICAL OR CHEMICAL HAZARDS: COMBUSTIBLE. DO NOT use, pour, spill or store near heat or open flame.

IN CASE OF FIRE: Use dry chemicals, foam, water fog or CO₂. Cool closed containers with water.
