Use as received. Do not thin out. To keep wood healthy and strong, put on at least two dressing coats with a brush. Or, back five minutes or more for each one inch of the kness. A gallon is enough for about 400 square feet. All wood should be bark free, dry and well seasoned and unpainted.

USOL Cabin Oil has great penetrating power, and is rapidly absorbed by wood. It is there permanently to destroy wood-boring insects. Protects wood over 100 years.

Being colorless, it will not stain or discolor wood. Wood will keep its natural color.

USOL is a wood preservative, keeping wood safe from decay, rot, and other wood-destroying insects.

WARNING: Do not use near open flame. Heat, fire, or sunlight will absorb the skin. If eyes skin, or clothes are touched, wash immediately with water. Do not breathe vapor, fumes or spray. Do not get in eyes, on skin or on clothing. Wash thoroughly. Keep away from domestic animals, children and infants.

Do not mix with water to clean up or prevent. Dispose of waste and containers in accordance with instructions on label.
