

SPECIMEN LABEL

DURSBAN* 25W

INSECTICIDE

Use to Control Chiggers in Turkey Pens

Active Ingredient
Chlorpyrifos (0,0-diethyl 0 (3,5,6 trichloro
2 pyridyl) phosphorothioate) 25%
Inert Ingredients 75%
E.P.A. Registration No. 464-446 E.P.A. Est. 464-MI 1

WARNING

KEEP OUT OF REACH
OF CHILDREN

HARMFUL IF SWALLOWED
MAY CAUSE EYE IRRITATION

Avoid contact with eyes, skin, and clothing. Do not take internally. Avoid breathing dust and spray mist. Do not contaminate food, feedstuffs, and water supplies. Wash thoroughly after handling.

FIRST AID: In case of eye contact, immediately flush eyes with plenty of water and get medical attention if irritation does not persist. In case of skin contact, wash skin with water.

Note to Physician and Veterinarian: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

USE DIRECTIONS

How to Mix and Apply: Apply DURSBAN 25W Insecticide as a spray to the soil in turkey pens. Use 16 lb. of DURSBAN 25W mixed in 100-150 gal. of water for each acre to be treated.

When to Apply: To prevent turkeys from becoming infested with chiggers, spray the soil in pens just before turkeys are transferred to them.

For turkeys already infested with chiggers, spray the soil in pens thoroughly. Allow at least 3 weeks for chigger lesions on the turkeys to heal before turkeys are slaughtered.

For optimum results, spray a 10-15 ft. protective area around the periphery of the treated pens.

USE PRECAUTIONS

Do not spray DURSBAN 25W directly on the turkeys.

Treatment is limited to two applications to the soil in turkey pens at intervals of not less than 4 weeks.

Do not treat soil in turkey pens later than 7 days before turkeys are to be slaughtered.

Avoid getting the spray on feed or in waterers. Open feed

should be covered during spraying operations, and water troughs should be flushed out immediately after the spraying operations.

This product is toxic to fish. Keep out of lakes, streams, and ponds.

Spray equipment should be washed and flushed thoroughly after spraying is completed. Dispose of rinse water by burying it in non-crop lands away from water supplies.

Do not reuse empty containers. Dispose of them by punching holes in them and burying them with the rinse waste, or by burning them. If they are burned, keep away from the smoke and fumes.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
