AND SKIN IRRITATION
COMBUSTIBLE

DURSBAN 21D

USE DIRECTIONS
General Information: Use DURSBAN 21D insecticide in the areas listed below by application as a dilute spray of 0.125% DDVP or a concentrate spray of 0.25% DDVP. Use the dilute spray to control light infestations and the concentrate spray to quickly reduce heavy infestations or as a spot treatment. Use DURSBAN 21D only with water as shown in the table below. Repeat treatment as needed.

also around doors and windows and wherever else these pests may find entrance.

FOR CONTROL OF BROWN DOG TICKS: Thoroughly apply a concentrate spray as a spot treatment to infested areas such as pet beds and resting quarters; nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment. Do not treat pets with this product.

FLIES AND MOSQUITOES: Use only out-of-doors as an aid in reducing annoyance from these insects. Thoroughly apply a concentrate spray to outside surfaces of window and door frames as well as other areas where these pests may find entrance into structures. Also spray dark corners and localized resting areas (such as under eaves) where flies and mosquitoes may congregate. Repeat treatment when effectiveness diminishes.

ENVIRONMENTAL AND USE PRECAUTIONS

Do not use in poultry houses or other animal buildings. Do not allow spray to contact food, feedstuffs, and water supplies. Thoroughly wash dishes and food handling utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fish bowls (tanks) before spraying.

This product is toxic to fish, wildlife, and birds. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning equipment or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Promptly destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.

DURS 21 INSECT

A Water Emulsifiable Formulation of Lasting control of Cockroaches, Ants, Brown Dog Ticks In and Around Residential Structures. Also Use Out-Of-Doors as Mosquitoes.

To Be Applied Only By or Under the Supervision of Licensed Pest Control Organizations, and Other Trained Personnel.

ACTIVE INGREDIENTS:

Chlorpyrifos: O,O-diethyl O-(3,5,6-trichloro-
pyridyl)phosphorothioate
2,2-Dichlorovinyl dimethyl phosphate
Related compounds
Xylene

INERT INGREDIENTS:

Contains 1.34 pounds of chlorpyrifos and 0.22 pounds of 2,2-dichlorovinyl dimethyl phosphate (DDVP) compounds per gallon.

E.P.A. Registration No. 464-476-AA E.P.A. Est. No. 100-100-0000
