TRANSLATION (TO THE USER: If you cannot read English, do not use this product until the label has been fully explained to you.)

GENERAL INFORMATION

LORSBAN 25-SL insecticide is a wettable powder formulation designed for slurry treatment of seed prior to planting to protect the germinating seeds and seedlings against injury by seed-corn maggots. LORSBAN 25-SL may be applied in combination with captan, chlorzoxiprol, or thiram fungicides if protection of the seed from fungi, which may cause disease or rot, is also desired. Seed treated with LORSBAN 25-SL may be stored for up to 14 months without loss of insecticidal effectiveness.

USE AND DOSAGE RECOMMENDATIONS

Lima Beans, Snap Beans, Sweet Corn (for control of seed-corn maggots). Use 4 ounces of LORSBAN 25-SL per 100 pounds of seed by applying to the seed as a slurry treatment prior to planting.

SLURRY TREATMENT

Prepare the slurry by adding 4 ounces of LORSBAN 25-SL to 4 gallons of water containing 1/2 ounce of METHOCCEL A4. Place the seeds in a clean, cotton or plastic bag and apply the slurry to the seeds by shaking the bag for each 100 pounds of seed to be treated. Generally, rough surfaced seeds such as lima beans require a greater volume of slurry than smooth surfaced seeds. Slurry treatment of seeds should be added to the slurry in a jar or can with its lid removed. Mix the slurry with the seed using a rotating paddle or other suitable mixing equipment that will insure each seed is uniformly coated. **DO NOT MIX THE SEED AND PRODUCT WITH BARE HANDS.** Dry the seed in a well-ventilated area if seed is added to a bag and when wet treatment is used. When a slurry is used, the seed should be dried.

USE PRECAUTIONS

Do not use treated seed for human consumption or as feed for livestock or poultry or for other purposes. Label treated seed as follows: **TREATED SEED. DO NOT USE FOR FOOD FEED OR DRUG.**

ENVIRONMENTAL CAUTIONS

This product is toxic to fish, birds, and wild life. Keep out of water. Do not allow treated seed to be spilled into water. Do not contaminate water, land, or equipment with spill or washes. Use this product only as specified on this label.

Do not mix with water by burying in soil, pouring into water supplies. Dispose of container by cutting with a utility knife, crushing, and burning. Keep out of smoke and flames.

WARNING

**KEEP OUT OF REACH OF CHILDREN
MAY BE HARMFUL IF SWALLOWED
CAUSES EYE IRRITATION**

Do not take internally. Do not get in eyes, on skin, or on clothing. Avoid breathing dust. Wash thoroughly after handling. Remove and wash contaminated clothing before reuse. Do not contaminate food, feed, or domestic water supplies. In case of contact, immediately flush eyes with plenty of water. Call a physician.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

NOTICE: Seed treated with this product is not to be used for human consumption or as feed for livestock or poultry or for other purposes. Label treated seed as follows: **TREATED SEED. DO NOT USE FOR FOOD FEED OR DRUG.** Do not allow treated seed to be spilled into water. Do not contaminate water, land, or equipment with spill or washes. Use this product only as specified on this label.
