PRECAUCION AL USUARIO: Si usted no lee inglés, no use este producto hasta que la etiqueta le haya sido explicada ampliamente.

TRANSLATION: (TO THE USER: If you cannot read English, do not use this product until the label has been fully explained to you.)

GENERAL INFORMATION

LORSBAN 25-PB insecticide is a special formulation containing graphite that is specifically designed for treatment of seed by application in the planter box as a dry mixture prior to planting. For satisfactory protection of seed from insect damage, LORSBAN 25-PB should be mixed with the seed according to procedure recommended on this label, which will help to ensure each seed is coated with the product. LORSBAN 25-PB may be applied with or over an approved fungicide seed treatment.

MIXING DIRECTIONS

Fill the planter box half full of seed, add the required amount of LORSBAN 25-PB for the amount of seed, and

thoroughly mix by stirring with a stick or paddle. Then, put the remainder of the seed in the planter box with the required amount of LORSBAN 25-PB for that portion and mix as before. DO NOT MIX THE SEED AND PRODUCT WITH YOUR BARE HANDS.

Good results may also be obtained by thoroughly pre-mixing the seed and LORSBAN 25-PB in a suitable container, then pouring the treated seed into the planter box.

USE AND DOSAGE RECOMMENDATIONS

Field Corn (For control of seed-corn maggots): Use 4 ounces of LORSBAN 25-PB per bushel or 50 pounds of seed. Mix according to directions given on this label so that each seed is coated with the product.

USE PRECAUTIONS

Do not use treated seed for human consumption, as feed for livestock or poultry; or for oil purposes. Label treated seed as follows: TREATED SEED. DO NOT USE FOR FOOD, FEED, OR OIL.

ENVIRONMENTAL CAUTIONS

This product is toxic to fish, birds, and wildlife. Keep out of any body of water. Treated seed exposed on soil surface may be hazardous to birds and other wildlife. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Use this product only as specified on this label.

Dispose of excess treated seed and wastes by burying in non-crop lands away from water supplies. Dispose of empty container by burying with wastes or by burning. If burned, keep out of smoke and fumes.

CAUTION

**KEEP OUT OF REACH OF CHILDREN
MAY BE HARMFUL IF SWALLOWED**

Do Not Take Internally. Avoid Contact with Eyes, Skin, and Clothing. Avoid Breathing Dust. Wash Thoroughly after Handling. Wash contaminated clothing before reuse. Do not contaminate food, feed, or domestic water supplies.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions or under abnormal conditions or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
