U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

EPA Reg. Number:

464-662

Date of Issuance:

SEP 04 2003

Term of Issuance: Conditional

Name of Pesticide Product:

S.S.T. Sump Saver Tablets

Name and Address of Registrant (include ZIP Code):

Angus Chemical Company
1500 East Lake Cook Road
Buffalo Grove, IL 60089

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document for Tris (hydroxymethyl) - nitromethane RED, EPA has reregistered the above name product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended.

Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release shipment:

- a. Revise the EPA Registration Number to read "EPA Reg. No. 464-662".
- b. Place the appropriate EPA Establishment No. on the product labeling.

Signature of Approving Official:

Marshall Swindell, PM 33
Regulatory Management Branch 1
Antimicrobial Division (7510W)

Date:

SEP 04 2003

- c. Based on the acute toxicity review, add a **First Aid** section to read as follows:

IF INHALED: Move person to fresh air. If the person. If the person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further advice.

IF IN SWALLOWED: Call a Poison Control Center or Doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told by a Poison Control Center or Doctor.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call Poison Control Center or Physician for treatment advice.

- d. Include the following statement near the **First Aid** section to read as follows:

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

- e. Place a Precautionary Statements section directly above the First Aid statements to read as follows:

PRECAUTIONARY STATEMENTS(HAZARDS TO HUMANS AND DOMESTIC ANIMALS): Harmful if swallowed or absorbed through the skin or inhaled. Causes moderate eye irritation or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing.

- f. Add the Effluent Discharge statement directly below the Directions for Use section to read as follows:

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local Sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of EPA.

- g. Add the subheading PPE Requirements and Entry Restrictions section to appear below the Effluent Discharge statement to read as follows:

**Protective Personal Equipment Requirements
And Entry Restrictions**

For poultry/livestock premises preservative and pulp and paper mills, the PPE requirement for mixer/loader/applicators is:

Pesticide handlers must wear:

Long-sleeved shirt and long pants

Chemical-resistant gloves

Shoes plus socks

When engaged in pouring the product,

A respirator with either on organic-vapor-removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C), or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-23C), or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G).

For metal working fluids and cooling towers water uses, the PPE requirements for mixer/loader/applicator is:

Pesticide handlers must wear:

Long-sleeved shirt and long pants

Chemical-resistant gloves

Shoes plus socks

In the poultry/livestock premises, post-application workers must observe the following use restrictions on the labeling in the directions describing use as a disinfectant spray:

Entry by any person-other than a correctly equipped handler is PROHIBITED in the entire enclosed building/structure from the start of application until aeration reduces the air concentration to less than 0.75 ppm. The air level concentration of formaldehyde must be measured before entry is permitted. (OSHA issued a final rule for the PEL for formaldehyde as 0.75 ppm, May 27th, 1992, Federal Register, Vol. 57, p. 22290).

Any handler who enters the treated areas during this entry-restricted period must wear:

Long sleeved shirt and long pants

Shoes plus socks

A respirator with either an organic-vapor-removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC_14G).

The Confidential Statement of Formula dated November 3rd, 1994, is acceptable.

3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Marshall Swindell

S.S.T. SUMP SAVER TABLETS

5/6

BACTERIOSTAT FOR WATER-SOLUBLE METALWORKING FLUIDS

ACTIVE INGREDIENTS:

2-(Hydroxymethyl)-2-nitro-1,3-propanediol 97.0% by wt
INERT INGREDIENTS: 3.01% by wt

100.0% by wt

CONTAINS 12 ONE-OUNCE TABLETS

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To provide fast relief from the rancidity which can occur in metalworking fluids, add 1 tablet for each 25 gallons of solution to the machine reservoir once a week, preferably on Friday afternoon or before the machine will be idle for some time. For extremely fouled systems, add 2 tablets weekly per 25 gallons. Allow fluid to circulate for at least 1 hour after addition.

See our Product Technical Bulletin for additional information.

KEEP OUT OF THE REACH OF CHILDREN.

CAUTION!

HARMFUL IF SWALLOWED.
WASH THOROUGHLY AFTER HANDLING.

DISPOSAL:

Do not reuse container. Dispose of by incineration or bury in an approved landfill.
