DOWFUME EB-30"

AGRICULTURAL CHEMICAL

Do Not Ship or Store with Food, Feeds, or Clothing

PRECAUCION AL USUARIO Si usted no lee inglés, no use este producto hasta que la etiqueta le haya sido explicada ampliamente.

TRANSLATION: (TO THE USER) If you cannot read English, do not use this product until the label has been fully explained to you.

HANDLING AND USE PRECAUTIONS

Do not use containers or handling equipment of aluminum, magnesium or their alloys, as under certain conditions DOWFUME EB-30 may be severely corrosive to such metals. Do not permit DOWFUME EB-30 to contact rubber parts of machinery or equipment as it may seriously damage them.

FIRST AID

IF INHALED—Remove patient to fresh air. Call a physician at once. Make sure patient can breathe freely. Keep patient warm. Give artificial respiration if breathing has stopped. Oxygen should be administered only by qualified personnel.

IN CASE OF CONTACT WITH LIQUID—Immediately remove all contaminated skin covering including shoes, clothing, and adhesive or other bandages. Wash skin thoroughly with soap and water; if irritation or blisters develop, get medical attention. Do not reuse shoes or clothing until free of all contamination. For eyes, flush immediately with plenty of water for at least 15 minutes and get medical attention.

NOTE TO PHYSICIAN: Keep patient at rest and under observation for 24 to 48 hours.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of **MERCHANTABILITY** or **FITNESS FOR A PARTICULAR PURPOSE**, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

Net Wt. 2 oz.

(BACK PANEL of carton)

4 - 2 oz. bait packets

A specially blended Rat and Mouse Killer in new bait packet form, neat and easy to handle. Nothing to measure.

USE DIRECTIONS - MICE: Place bait packets at intervals of 8 to 12 feet where mice or signs of mice have been seen (making a tear in the packet soon after use hastens acceptance by mice). Assure an uninterrupted supply of bait for a period of at least 15 days and continue until all signs of feeding have stopped. Be sure to replace packets emptied of bait within 24 hours.

USE DIRECTIONS - Rats: Place 2 to 3 packets of bait (4 to 6 ounces) next to burrows, in runways, or where rats are accustomed to feed. Assure an uninterrupted supply of bait for a period of not less than 15 days and continue baiting until all signs of feeding have stopped.

Place bait packets in locations not accessible to children, pets and domestic animals. When not in use store packets in a cool dry place.

CAUTION: Contains Warfarin, a blood anticoagulant and sulfaquinoxaline, an anti-vitamin K agent. ANTIDOTE: Treat by administering vitamin K and oil-soluble ascorbic acid. For overdose of Dicoumarol (bishydroxycoumarin).

ACTIVE INGREDIENTS:

1-N-(2-quinoxalinyloxy) Sulfanilamide (sulfaquinoxaline) 0.02

Warfarin 0.02

INERT INGREDIENTS (corn, wheat and oats) 99.95

~~USDA Reg. No. 468~~

Neat, Easy to Use

Handy way to kill mice in your house. Nothing to measure. Nothing to pour. Just place the bait packets wherever you find signs of mice. No muss. No fuss. Bait packets slide under cabinets, into tight corners and narrow openings-- quickly and easily.

Mice like it - Each bait packet contains pellets composed of mixed grain that mice like to eat. Makes a bait so enticing that mice gnaw right through the packet and actually "eat themselves to death".
