AND
HORNET
KILLER**

FORMULA
"A"

**KILLS FROM
12 FT. AWAY**
use as directed

NET WT. 14 OZ. (397 GMS.)

WARNING: KEEP OUT OF REACH OF CHILDREN
See other precautions on back panel

WASP • BEE AND HORNET KILLER

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing of spray mist or contact with skin. Wash thoroughly with soap and water and before eating or smoking. Do not contaminate feed, water or foodstuffs. Do not allow children or pets to contact treated surfaces until dry. Do not smoke while spraying. Do not use as a space spray. **USE OUTDOORS ONLY. KEEP OUT OF REACH OF CHILDREN.**

WARNING: Flammable! Contents under pressure. Do not use near fire, sparks or flame. Do not puncture or incinerate container. Exposure to temperatures above 120° F may cause bursting.

BLACK FLAG WASP • BEE and HORNET KILLER with "Baygon and DDVP" kills fast. Vaporizing action of DDVP penetrates into nests and under eaves to kill hornets and wasps.

DIRECTIONS: SPRAY 2 WAYS.

FOR SPRAY MIST—Press half way down
FOR 12 FOOT JET—Press all the way down

HORNETS, WASPS (SUCH AS YELLOW JACKETS, MUD DAUBERS), BEES AND CICADA KILLERS: Spray a stream directly on nests, especially around openings. The stream can be directed 6 to 12 feet. Apply to nesting areas at dusk when possible, since most insects are then in their nests and less active. Spray around window and door frames, under shutters, under eaves and siding, around rafters and other areas where Wasps and Hornets may nest. Repeat applications when necessary.

GARBAGE CANS FOR YELLOW JACKETS AND FLIES: A thorough spraying inside garbage can will help control Yellow Jackets which may frequent the area and will kill flies. The DDVP will give vaporizing action if the garbage can is slightly covered. Reapplications should be made when insects reappear.

ACTIVE INGREDIENTS 83.72%: o-Isopropoxyphenyl methylcarbamate* 0.50%; 2,2-dichlorovinyl dimethyl phosphate (DDVP) 0.186% and 0.014% related compounds; Petroleum Distillates 83.02%.
INERT INGREDIENTS: 16.28%
