Black Flag Wasp, Bee, and Hornet Killer kills fast. The vaporizing action of DDVP penetrates into nests under eaves to kill hornets and wasps.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMAN AND DOMESTIC ANIMALS
CAUTION**

Formulation is toxic if absorbed through skin. If swallowed, eat physician immediately. AVOID TO EAT OR DRINK - stop if it is intended. Avoid breathing spray mist. Do not get on face, eyes or clothing. Provide adequate ventilation of work area. Do not apply to food or feedstuffs. Do not use on food, foodstuffs, or feedstuffs. Wash thoroughly after use and before smoking or eating. Do not use on children's toys or clothing.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Gastric lavage is indicated if medical aid is taken immediately. DO NOT INDUCE VOMITING. Do not give anything by mouth until advised by a physician.

IF ON SKIN: Remove contaminated clothing and wash affected areas with soap and water.

IF IN EYES: Flush eyes with plenty of water. Call medical attention if irritation persists.

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE. CONTENTS UNDER PRESSURE. Keep away from heat, sparks, and open flame. Do not puncture or otherwise damage container. Exposure to temperatures above 120°F may cause leakage. Do not store with a strong acid. Excessive heat may cause leakage or rupture of container.

DIRECTIONS FOR USE

See back panel for directions to use this product on various insects and nests.

STORAGE AND DISPOSAL

Do not store in areas where children or pets may have access. Do not use in areas where children or pets may have access.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

To Use: Shake well before each use. Remove tab on top of sprayer. Point nozzle at area to be sprayed. Pull trigger. (Do not pump.)

Hornets, Wasps, Bees, and Cicada Killers: Spray a stream directly on nests, especially around openings. The stream can be directed 6 to 12 feet. Apply to nesting areas at dusk, when possible, since most insects are then in their nests and less active. Spray around window and door frame, under shutters, under eaves and siding, around rafters and other areas where wasps or hornets may nest. Repeat applications when necessary.
