GERMICIDAL
Sani-Flush®
Super Cleaning Power

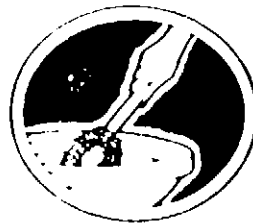

Sani-Flush has a Dual-Action formula for extra-tough cleaning problems. It is specially formulated to remove tough hard water stains, tough rust stains and stubborn bowl deposits. Sani-Flush is a strong disinfectant that kills most household germs fast—even staph and odor-causing germs. Leaves bowl sparkling clean, hygienic and sanitary.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
TO OPEN CHILD RESISTANT CAP—POSITION TAB BETWEEN ARROWS AND PULL UP.
—RECOMMENDED FOR HOUSEHOLD USE—

FOR CLEANING AND DISINFECTING TOILET BOWLS—Flush toilet while brushing interior of bowl. Be sure to wet surfaces thoroughly, including under the rim. When water has stopped running, shake 1/2 cap or more of Sani-Flush around the bowl sides and in the water. Let stand at least 10-15 minutes. Brush or scrub all surfaces thoroughly before flushing. Repeat once weekly for thorough cleanliness.

TO REMOVE STUBBORN, PERSISTENT BOWL STAINS—Flush toilet, then remove as much water from the bowl as possible by pushing plunger or brush into trap area several times. Shake 1/2 cap or more of Sani-Flush onto the stained area. Let stand for several hours, or preferably overnight. Flush toilet, brush thoroughly, then flush again.

Regular use of Sani-Flush keeps white or colored bowls stain free, sanitary, sparkling and bright. Sani-Flush should be used for toilets only. Do not use on bathtubs, sinks, or any other enameled or metal fixtures. Will not damage porcelain toilets, plumbing and septic tanks. Contains no phosphates.

In between cleanings, use Sani-Flush Liquid or Solid Automatic In-Toilet Bowl Cleaners for continuous cleaning and deodorant action.

STORAGE AND DISPOSAL

Store in a dry place. Do not reuse empty container. Securely wrap in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS
