ANT AND ROACH KILLER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, inhaled or absorbed through skin. If swallowed, call physician immediately. **NOTE TO PHYSICIAN**—atropine is antidotal. Avoid breathing spray mist and contact with skin, hair, or clothing. Provide adequate ventilation of area being treated. Do not apply to humans and pets or contaminate feed, foodstuffs, dishes and utensils. Wash thoroughly after use and before smoking or eating. Do not allow children in treated areas until surfaces are dry.

STATEMENT OF PRACTICAL TREATMENT

If swallowed Call a physician or Poison Control Center immediately. Gastric lavage is indicated if material was taken internally. **DO NOT INDUCE VOMITING**. Vomiting may cause aspiration pneumonia.
If inhaled Remove victim to fresh air. Apply artificial respiration if indicated.
If on skin Remove contaminated clothing and wash affected areas with soap and water.
If in eyes Flush eyes with plenty of water. Get medical attention if irritation persists.

NOTE TO PHYSICIAN—atropine is antidotal

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE CONTENTS UNDER PRESSURE. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not spray near fire or open flame. Do not smoke while spraying. Black Flag Ant and Roach Killer contains vapourising DDVP and residual Baygon insecticides. Kills insects three ways—when sprayed, by penetrating vapors and residual action—keeps on killing for four weeks.

FOR HOUSEHOLD USE ONLY DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For spot application only. Do not use as a space spray.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **Storage:** Store in a cool area away from heat or open flame. **Disposal:** Wrap container and put in trash collection.

IMPORTANT: HOLD CONTAINER ONLY IN UPRIGHT POSITION TO SPRAY. Shake well before each use. Direct spray away from face. Hold container 5 to 12 inches from surfaces and spray at the rate of 1 foot per second or until surfaces are wet. If reinfestations occur, repeat applications as necessary.

To Kill Crawling Insects: Spray directly on crawling insects or around their favorite hiding places such as cracks and crevices. Black Flag Ant & Roach kills ants, cockroaches and other listed crawling insects fast. Its long residual action keeps on killing for four weeks.

ROACHES, WATERBUGS, CRICKETS AND CENTIPEDES: Thoroughly spray cracks, crevices, baseboards, under-neath chairs, tables, kitchen shelves, cupboards, sinks, refrigerators and around garbage containers.

ANTS: Spray ant trails, door sills, window frames and other places where ants may enter. Spray directly on ant hills. Spray directly on swarming ants outdoors only.

CLOVER MITES, BOXELDER BUGS, EARWIGS, SOWBUGS, SCORPIONS, BLACK WIDOW AND OTHER SPIDERS, SILVERFISH, FIREBRATS AND CARPET BEETLES: Spray directly on the insects where possible and around points of entry into the home such as window sills and door frames.

To Kill Flying Insects: FLIES, MOSQUITOES, GNATS, WASPS AND SMALL FLYING MOTHS: Spray directly on insects for fast action. Apply on screens, walls, door and window frames, light fixtures and other surfaces where insects congregate. Black Flag's new powerful spray gives fast knockdown and kills mosquitoes, flies and other listed flying insects fast.

CONTENTS UNDER PRESSURE

NET WT. 12.5 OZ. (353g)

Roach Killer Ant and Roach Killer contains active ingredients of Dieldrin, DDT, and Pyrethrin. It is a fast-acting roach killer which kills roaches by penetrating a roach's body and killing it from within.

FOR HOUSEHOLD USE ONLY
EFFECTIVE FOR USE

Roach Killer Ant and Roach Killer is a fast-acting roach killer which kills roaches by penetrating a roach's body and killing it from within.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Store in original container away from heat or open flame. Always use proper disposal methods for waste.

METHOD OF USE - CONTAINER ONLY IN UPRIGHT POSITION: Shake well before each use. Spray directly on roach infestation. Do not spray on surfaces and spray at the rate of 1 to 2 sprays per 100 sq. ft. of area. Are wet if reinfestations occur. Repeat applications as necessary.

TO KILL CRAWLING INSECTS: Spray directly on crawling insects in a broad thin layer on hiding places such as cracks and crevices. Black Flies, Ants, Fleas, and other listed crawling insects fast-acting roach killer for 4 weeks.

BLACK FLIES, ANT, FLEA, TICK, AND OTHER LISTED CRAWLING INSECTS: Spray directly on infestation. Do not spray on surfaces and spray at the rate of 1 to 2 sprays per 100 sq. ft. of area.

ANTS: Spray ant trails, doorways, window frames and other places where ants may enter. Spray directly on ant trails. Spray directly on swarming ants outdoors only.

CLOVER MOTH, HORNET, BEE, EARWIG, SCORPION, BLACK WIDOW AND OTHER SPIDERS, SILVER FISH, KREBBERS AND CARPET BEETLES: Spray directly on the insects where possible and prevent entry into the home such as window sills and door frames.

TO KILL FLYING INSECTS: FLIES, MOSQUITOES, GNATS, WASPS AND SMALL FLYING MOTHS: Spray directly on flying insects. Apply on screens, walls, door and window frames, light fixtures and other places where insects aggregate. Roach Killer's new powerful spray gives fast knockdown and kills flying insects and other listed flying insects fast.
