TOMATO & VEGETABLE FOGGER

Black Flag Tomato and Vegetable Fogger is an effective, fast acting insecticide for use on fruit, vegetables and ornamental plants. Black Flag Tomato and Vegetable Fogger contains natural pyrethrum and can even be used on the day of harvest to kill over 20 types of garden pests.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DISPOSAL

DISPOSAL: Do not reuse empty container. Wrap container and dispose of in trash. Do not incinerate.

Shake can well before using.

FOR USE ON FRUITS AND VEGETABLES: Hold can at slight downward angle and spray from 4 feet away. Allow fog to drift through plants and reach interior leaves and branches. Also spray undersides of leaves. Contact insects directly whenever possible. Application will be more effective when air is calm. Repeat treatment every 7-10 days for best results. One can will treat three 20' x 30' gardens.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMAN AND DOMESTIC ANIMALS

CAUTION: Avoid breathing of spray mist or contact with eyes or skin. Wash after use. Do not apply to humans or pets.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply to lakes, ponds, or streams.

PHYSICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or excise container. Exposure to temperatures above 130°F may cause bursting. Avoid freezing.

TOMATO & VEGETABLE FOGGER

NOTE: use of this product in food processing plants should be confined to times when plants are not in operation. Foods should be removed or covered during treatment. Following treatment, wash all equipment, benches, utensils, shelves, etc. with a suitable detergent and then rinse with potable water.

Flying Insects - To kill flies, mosquitoes, gnat, small flying moths, wasps, and hornets. Close door and windows and spray upward with waving motion until area is misted. Spray insects directly whenever possible for quick action. Vacate treated area or keep closed for 10 to 15 minutes. Ventilate before re-occupying. Repeat as necessary.

Crawling Insects - To kill ants, roaches, waterbug, crickets, centipedes, spiders, silverfish and earwig. Spray hiding places such as behind pipes, under sinks and tables, along baseboards, around pallet in cracks and crevices in floors, woodwork on walls, and in similar areas. Contact as many insects as possible. Do not allow spray to contact stored food or surfaces likely to be contacted by food. Repeat as necessary.
