PROPOSED REVISED LABEL COPY (continued)

Sani-Flush Thick Liquid Disinfectant Toilet Bowl Cleaner (475-250)

Submitted by Boyle-Midway, Inc. on July 9, 1987

(BACK PANEL)

New Sani-Flush Thick Liquid has a special bottle and spout designed to reach directly under the rim for complete toilet bowl cleaning. Thick Liquid clings to the side of the bowl to improve cleaning and disinfecting action. Cleans rust, soil, and mineral deposits as it kills household germs. Use weekly to keep toilets stain-free and sanitary. Safe for septic tanks and plumbing. Use on toilet bowls only. Do not use on enameled or metal fixtures such as bathtubs, washstand and sinks.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To Open Child Resistant Cap: Push cap down while turning counter-clockwise. To close: Screw cap on tightly clockwise. When locked, cap will click when turned counter-clockwise without pushing down.

To Clean and Disinfect - Regular Use: Raise toilet seat. Lower bottle into bowl so the nozzle is below the toilet bowl rim. Squeeze bottle gently in order to determine direction of the spray. Apply at least 4 ounces of Sani-Flush Thick Liquid up and under the rim, being sure to completely cover the inside of the bowl. Let stand 15 minutes -- then brush all areas and flush.

For badly stained bowls, lower the water level in the bowl as much as possible. Then re-apply Sani-Flush Thick Liquid and let stand for several hours or preferably overnight. Brush all areas and flush. Rinse brush in fresh bowl water after use.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Harmful if swallowed. May cause chemical burns. Do not get in eyes, on skin or clothing. Wear safety glasses or other protective eyewear and rubber gloves when handling. Do not use with chlorine type products or mix with other cleaners or chemicals -- harmful fumes may result.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Rinse mouth. Drink one or two glasses of water or milk. DO NOT induce vomiting. Call physician.

If in eyes: Flush eyes with plenty of water for 15 minutes. Call physician.

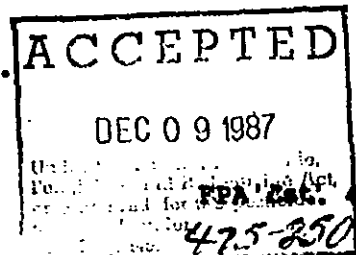

If on skin: Wash with plenty of soap and water. Call physician if irritation persists.

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container and put in trash.
