PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors. Avoid contact with skin. In case of contact, immediately flush skin with plenty of water.

Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Cover exposed food.

Remove pets, birds and cover fish aquariums before spraying.

Physical or Chemical Hazards

Contents under pressure. Do not store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bulging. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

General Classification

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

SHAKE BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

To Kill Flies, Mosquitoes, Small Flying Bees, Gnats and Wasps: Close all doors and windows and direct spray toward center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and destroy fallen insects. Before spraying cover exposed food and utensils.

To Kill Cockroaches, Ants and Crickets: Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under stoves, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry. Repeat as necessary.

To Kill Carpet Beetles: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Beat the surface of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected. Repeat as necessary.

To Kill Enclosed Forms of Cockroach Fleas, Scavenger Grain Beetles, and Rice Weevils: Find and destroy the pest package. Remove all other items from vicinity. Spraying the shelves to kill any of the insects present. Place clean paper on the shelves and return packages after shelves have dried. Repeat as necessary.

To Kill Spiders, Centipedes, Firebrats and Silverfish: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under stoves, behind stoves and refrigerators.

To Kill Fleas and Ticks on Dogs and Cats: Apply directly to animal's back, under forelegs, and other areas except scrotum and anus. Part hair to contact skin and insure good coverage. Hold nozzle about one foot away while spraying. Apply until hair is thoroughly moist. Do not spray directly in eyes or mouth of animal. Repeat within 24 hours if first treatment is necessary. Note: This aerosol may cause a slight hissing sound and cause a temporary cool sensation. Hold pet securely while applying. Nervous animals may become frightened the first time this product is used, but soon become accustomed to the treatment.

To Kill Fleas and Ticks on Pet Bedding and Pet Areas: To reduce reinfestation, thoroughly spray the animal's bedding and other petting places until the surface is slightly moist. Treat these areas at the rate of one second per linear foot at a distance of 12 to 18 inches. Also spray the entire inside surface of dog houses. Repeat as necessary.

Treat Fleas and Tick Infestation in Dogs and Cats: Spray rugs and carpets where pet tends to lie. If used on light or delicate upholstery fabrics, test for potential staining in an inconspicuous place prior to use. Spray thoroughly into hidden places such as cracks and crevices, in walls and floors, along baseboards, window and door frames. Repeat as necessary.

New Formula
Water based (formula)
Pine scented (for use with pine alternate formula)
Unscented (formula) (for use with basic formula)
Fast knockdown
Fast kill
Proven effective
Guaranteed to work or your money back
No unpleasant (residual) odor
Non-staining
No sticky mess
No lingering odor
Won't stain carpets, drapes or upholstery
Kills German cockroaches

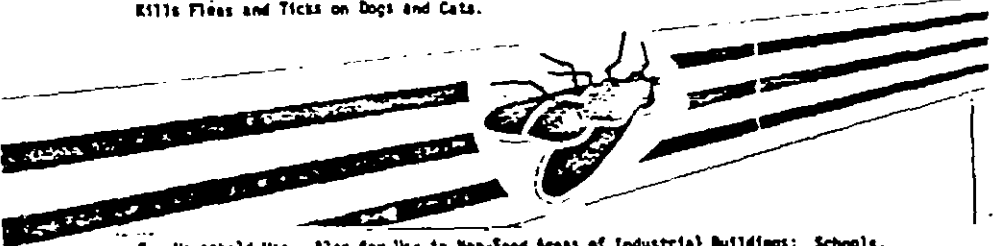

Kills Common Household Pests:

Houseflies, Mosquitoes, Cockroaches, and others listed on back panel.

Kills Fleas and Ticks on Dogs and Cats.

FLYING INSECT KILLER-formula A

For Household Use. Also for Use in Non-Food Areas of Industrial Buildings: Schools, Warehouses, Office Buildings, Theatres, Garages, Hotels, Hospitals.

ACTIVE INGREDIENTS:

Tetramethrin [(1-cyclohexene-1,2-dicarboximido) methyl 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate]	0.250g
o-phenylenebis(1,1,1,3,3,3-hexafluoro-2,2,2-trimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate)	0.143g
Other isomers	0.007g
TOTAL	0.399g

INERT INGREDIENTS: 100.000g

Total 100.399g

o-(cis,trans) phenothrin

cis/trans isomer ratio: Max. 35% (2) cis.

Min. 75% (2) trans.

DIRECTIONS FOR USE

General Classification

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

SHAKE BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

To Kill Flies, Mosquitoes, Small Flying Moths, Gnats and Wasps: Close all doors and windows and direct spray toward the center of room with a 3-5 second sweeping motion. Spray 5-10 seconds per average room. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and destroy fallen insects. Before spraying cover exposed food and utensils.

To Kill Cockroaches, Ants and Crickets: Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under furniture, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry. Repeat as necessary.

To Kill Carpet Beetles: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected. Repeat as necessary.

To Kill Enclosed Forms of Confused Flour Beetles, Sawtoothed Grain Beetles, and Rice Weevils: Spray and destroy infested package goods. Remove all other items from pantry. Seal the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Repeat as necessary.

To Kill Scorpions, Centipedes, Firebrats and Spiders: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks, behind stoves and refrigerators.

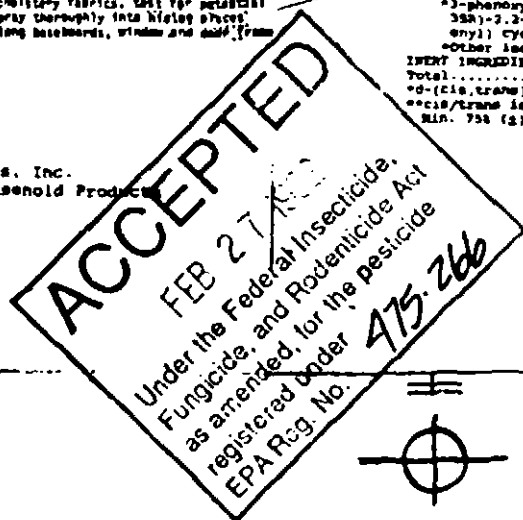

To Kill Fleas and Ticks on Dogs and Cats: Apply directly to animal's back, under forelegs, and other areas except around and under. Part hair to contact skin and insure good coverage. Hold nozzle about one foot away while spraying. Apply until hair is thoroughly moist. Do not spray directly in eyes or mouth of animal. Repeat within 24 hours if first treatment is necessary. Note: This product may cause a slight stinging sound and cause a temporary cool sensation. Hold pet securely while applying. Nervous animals may become frightened the first time this product is used, but soon become accustomed to the treatment.

To Kill Fleas and Ticks in Pet Bedding and Pet Areas: To reduce reinfestation, thoroughly spray the animal's bedding and other resting places until the surface is slightly moist. Treat these areas at the rate of one second per linear foot at a distance of 12 to 18 inches. Also spray the entire inside surface of dog houses. Repeat as necessary.

Treat Flea and Tick Infestation in Rugs and Carpets: Spray rugs and carpets where pet tends to lie. If used on light or delicate upholstery fabrics, test for petstical staining in an inconspicuous place prior to use. Spray thoroughly into hidden places such as cracks and crevices, in walls and floors, along baseboards, window and door frames. Repeat as necessary.
