ROACH ENDER™

Black Flag® Roach Ender® Spray contains **GENCOR®** Insect Growth Regulator, an ingredient which inhibits roaches' natural ability to reproduce, thereby eliminating future generations and an ingredient (adulticide) that kills existing roaches. This powerful formula reaches roaches through cracks and crevices to kill them where they hide. One to two weeks after application, you will begin to see roaches with crinkled wings — showing the effects of GENCOR IGR. These roaches cannot reproduce. Immature roaches are prevented from developing into reproductive adults, thereby effectively breaking the roach life cycle.

For best results, spray should be applied once every 2 months. In less infested areas, spray can be applied once every 2 to 4 months. For heavily infested areas, repeat application after 1 month — then re-treat every 2 months. It leaves no bad smell, no sticky mess, and used as directed, does not stain furnishings.

REFUND IF NOT SATISFIED

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - WARNING: May cause skin irritation. Do not get on skin or on clothing. Harmful if swallowed, inhaled, or absorbed through skin. Avoid breathing mist. Do not apply to animals or humans. Avoid contamination of food and foodstuffs. Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared, processed or stored. Do not use in serving areas while food is exposed. Wash thoroughly with soap and water after handling.

STATEMENT OF PRACTICAL TREATMENT: **If in eyes,** flush with plenty of water. Get medical attention if irritation persists. **If inhaled,** remove victim to fresh air. Apply artificial respiration if indicated. **If on skin,** remove contaminated clothing and wash affected areas with soap and water. **If swallowed,** get medical attention. For Medical Emergency, Call 800-338-6167.

PHYSICAL AND CHEMICAL HAZARDS: Extremely flammable. Contents Under Pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: Use entire contents in one application.

Apply to areas of kitchen and baths where roaches hide and areas of major roach activity. This includes such areas as along baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing, behind drawers and inside of cabinets and closets. Cover or remove exposed food, dishes, utensils, food handling equipment and plastic items before treatment. Do not use this product in or on electrical equipment due to the possibility of shock hazard. One can will treat the average size kitchen and bathroom.

STORAGE & DISPOSAL:

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool area away from heat or open flame.

DISPOSAL: Do not puncture or incinerate. Wrap container and put in trash collection.
