NOTICE OF PESTICIDE

Product Name: [Faint text]  
EPA Reg. No.: [Faint text]

TERM OF ISSUANCE

Initial Registration

NAME OF PESTICIDE

[Faint text]

[Faint text]

NAME AND ADDRESS OF REGISTRANT

160 / 228230  
18 / 2

NOTE: Changes in the label information must be approved by EPA. The registrant must submit a copy of the label to EPA for approval. In any case, the registrant must comply with the label information.

On the basis of the information provided, the registration for the pesticide is hereby registered (Renewed) under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the label is being provided to the registrant with this registration. The registrant is required to retain a copy of the label.

The registrant is required to submit a copy of the label to the Agency for approval. The Agency will review the label and determine if it meets the requirements of the Act. The Agency will issue a registration number for the pesticide if the label is approved. The registrant must comply with the registration number for the pesticide.

food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. In the home, cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment.

Nonfood areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

- d. Use in food handling establishments can imply use in U.S. Department of Agriculture (USDA) Meat and Poultry Plants. Therefore, either add the statement "Not for Use in USDA Meat and Poultry Plants," or submit an application to USDA requesting use in these areas. If granted you can then indicate on the label that the product can be used in these areas.
- e. Since your data matrix does not include a dielectrical breakdown voltage, you must add the following to the use directions:

Do not use this product in or on electrical equipment due to the possibility of shock hazard.
- f. In the listing of use sites on the front panel, place "Kennels" at the end so that "Non-food areas of Kennels" is not read.

3. On the Confidential Statement of Formula and on the Data Matrix please provide the flame extension of the product including any flashbacks if noted.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

Front Panel

Ready to Use Spray - Residually Kills:  
Ants, Cockroaches, Ticks, Fleas and other listed insects.

For Use in Homes and Non-Food Areas of Kennels, Commercial Buildings: Warehouses, Theatres, Office Buildings, Schools, Motels, Hotels, Restaurants and Food Processing Facilities.

ACTIVE INGREDIENTS:

d-trans Allethrin (allyl homolog of Cinerin I)	0.060%
Related compounds	0.005%
*Piperonyl butoxide, technical	0.120%
*1-Octyl bicycloheptene dicarboximide	0.200%
**Cyano (3-phenoxyphenyl)methyl 4-chloro-alpha-(1-methylethyl) benzeneacetate	0.200%

\*\*\*INERT INGREDIENTS:

99.415%  
100.000%

\*Equivalent to 0.096% (butylcarbityl)(6-propylpiperonyl) ether and 0.024% related compounds.

\*\*Licensed under U. S. Patent No. 4,062,968 of Sumitomo Chemical Company. -MGK® 264, Insecticide Synergist

\*\*\*Contains Petroleum distillate

EVERCIDE® - Registered Trademark of McLaughlin Gormley King Company.

KEEP OUT OF REACH OF CHILDREN

**CAUTION**

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Do not induce vomiting because of aspiration hazard.

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

IF ON SKIN OR CLOTHING: Remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists.

IF INHALED: Remove victim to fresh air and call a physician if effects occur.

Precautionary Statements

Hazards to Humans and Domestic Animals

**CAUTION**

May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid.

Do not use in commercial food processing preparation, food storage or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed.

Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until spray has dried.

Physical or Chemical Hazards

**FLAMMABLE.** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

*Do not use on or in electrical equipment. Do not use on the face, hair, or clothing.*

**General:** Use Residual Spray or <sup>Spray II</sup> Black Flag Ant & Roach Killer as a spot or crack and crevice treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

For Spot Treatment:

To Kill Ants, Cockroaches, Crickets, Silverfish, Spiders, Sowbugs and Carpet Beetles: Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators, and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. Do Not Spray Pets With This Product.

For Crack and Crevice:

To Kill Ants, Cockroaches, Crickets, Silverfish, Sowbugs, Spiders, Brown Dog Ticks, Fleas, and Carpet Beetles: Apply spray in small amounts directly into cracks and crevices. Equipment capable of delivering a pin stream should be used in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where the above listed insects hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

Flies and Mosquitoes: Use only out of doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surface will be killed. Repeat treatment when necessary.

#### STORAGE AND DISPOSAL

Storage: Store in a cool dry area away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.
