Wayne, NJ 07474

Dear Ms. King:

Subject: Updated Labels and Confidential Statements of Formula
EPA Reg. No.s: 475-300, 475-299, 475-295, 475-302,
475-301, 475-292
Submission: August 1, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is not acceptable for the reasons given below.

1. Provide labeling in accordance with 40 CFR 156.10.
2. The Confidential Statement of Formulas dated August 1, 1991, are acceptable and have been included in the respective files for each pesticide. Complete Certified Limits for 475-295.

Sincerely,

for 

Richard F. Mountfort
Product Manager 10
Insecticide/Rodenticide Branch
Registration Division (H7505C)

PRESSURIZED SPRAY**

Back Label

DIRECTIONS: SHAKE BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

INDOORS: To kill flies, mosquitoes, gnats, and flying moths, close all doors and windows. Cover or remove all exposed food and utensils. Spray 5-10 seconds for average room. Direct spray upward three feet from surfaces. Keep room closed for 15 minutes after spraying. Ventilate room before re-entry. Repeat as needed.

To kill roaches and waterbugs: Spray baseboards, cracks, crevices, moist areas, and openings around sinks and pipes, behind cabinets, etc., where roaches hide. Hit as many insects as possible directly with the spray. Repeat as necessary.

To kill ants: Spray ant hills liberally. Spray ant trails over window and door sills and other locations. Repeat as needed.

For house plants, spray in short bursts, holding the can 18 inches from foliage when spraying English ivy and African violets. Spray both sides of the leaves lightly. Do not wet. Repeat as often as necessary. Kills aphids (plant lice), spider mites, exposed thrips, lace bugs.

OUTDOORS: For listed insects on asters, azaleas, begonias, chrysanthemums, dahlias, delphiniums, gladioli, irises, marigolds, petunias, roses, and snapdragons. Also for insects specified below on evergreens and small ornamental deciduous trees, shrubs and vines.

When sprayed directly on insects, this spray kills the following sucking insects: aphids, leafhoppers, spotted mites, thrips (exposed) and lace bugs. Kills the following chewing insects: southern army worm, Mexican bean beetles, climbing cutworms and Japanese beetles when sprayed directly.

For best results spray in evening or on a cloudy day when air is still. Use slow sweeping motion. Keep can 18 inches from plants. Avoid wetting foliage with the spray. Spray rows at the rate of one foot per second. For heavy growth, spray row on both sides. Repeat when needed. Spray with caution on young plants and new growth. Do not spray when temperatures exceed 90°F.

This product may be used outside on porches, patios, and in the yard and picnic area to kill flies, mosquitoes, gnats, and other small flying insects. Fog the area liberally. spray with the breeze, allowing the fog to drift into shrubbery and other places where insects harbor. Repeat as necessary.

Contents under pressure. Store upright in a cool place (not over 120°F). Do not place on hot surface. Do not puncture the can. Never throw in fire or incinerator. May stain finished surfaces if sprayed too closely.
