Precautionary Statements Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors. Avoid contact with skin. In case of contact, immediately flush skin with plenty of water.

Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Cover exposed food.

Remove pets, birds and cover fish aquariums before spraying. Do not contaminate fish ponds with spray.

PHYSICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

SHAKE BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

To Protect Woolen Articles: Brush woolen articles clean, air and remove persistent spots and stains by dry cleaning. Holding dispenser at least two feet from garment, spray thoroughly. Treated articles should be put in darkened closet or other darkened storage area. For best protection clean and spray insides of closets or storage units for 30-40 seconds before putting treated articles away. This will kill the larvae and adults of carpet beetles and clothes moths. Treatment should be repeated every six months or as needed. Dry clean treated clothes before wearing.

Dear Ms. King:

Subject: Updated Labels and Confidential Statements of Formula
EPA Reg. No.s: 475-309, 475-310, 475-313, 475-314,
475-316, 475-318
Submission: August 1, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

1. Delete "General Classification" from all labels.
2. Ensure that you have provided an appropriate "Statement of Practical Treatment" for each product.
4. Ensure that all products state the chemical listing for Sumithrin as:

3-phenoxybenzyl-(1RS,3RS;1RS,3SR)-2,2-dimethyl-3-(2-methylpropenyl) cyclopropane carboxylate
5. Combine the percentage for other isomers of Sumithrin with the figure for that active ingredient. For example, the declaration for Reg. No. 475-309 would be 0.4% ai. Adjust the inert ingredient percentage so that the total for the formulation adds up to 100%. Do not use other isomers separately as an active ingredient (EPA Reg. No. 475-318)
6. Clarify flashpoint/flame extension data on 475-314, 475-318. Current CSF's on these identical products disagree with each other and also with former CSF's.

7. Since your data matrix does not provide a dielectrical breakdown voltage, the following statement must be added to the PHYSICAL OR CHEMICAL HAZARDS heading of registrations 475-313, 475-310:

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

8. For Reg. No. 475-313, delete "-allyl homolog of Cinerin I" from the ingredient statement. It no longer accurately describes the allethrin in this formulation.

The formula statements dated August 1, 1991, are acceptable and have been added to the respective files.

Sincerely,

RFM
