RECOMMENDATIONS

CALCIUM ARSENATE-METALDEHYDE 5-3 PELLETS is a special formulation which employs special ingredients to carry the main toxicants, calcium arsenate and metaldehyde, to the target pest and making the material as palatable as possible. For best results, apply to the target pest's product of interest in the field and immediately.

CALCIUM ARSENATE-METALDEHYDE 5-3 PELLETS is recommended for control of *Colorado potato beetles* on a variety of plants, blueberry, peas, beans, corn, cucumbers, eggplants, melons, peppers, collards, corn, pumpkins, squash, and tomatoes. Also on melons, pumpkins, rutabagas, and turnips. For control of *Colorado potato beetles* on potatoes.
