Ordram 5•G

20/40 Mesh (U. S. Sieve Series Designation)

GRANULES—A Selective Herbicide For Use on Rice Only

ACTIVE INGREDIENT:

S-ethyl hexahydro-1H-azepine-1-carbothioate 5%

INERT INGREDIENTS: 95%

100%

U. S. Patent No. 3,198,786

DIRECTIONS FOR USE & RECOMMENDATIONS

FOR USE ON **RICE**

TO CONTROL **WATERGRASS** (Barnyardgrass) (Echinochloa spp.)

CAUTION

Keep Out of Reach of Children

MAY BE HARMFUL IF SWALLOWED. AVOID CONTACT WITH SKIN, EYES, AND CLOTHING. WASH WITH SOAP AND WATER AFTER USE.

AVOID BREATHING DUST. AVOID CONTAMINATION OF FEED AND FOOD.

READ ALL DIRECTIONS BEFORE USING

USE PRECAUTIONS

READ ALL LABEL INSTRUCTIONS BEFORE USING. ORDRAM should be used only for recommended purposes and at recommended rates. ORDRAM may cause injury under extreme soil or climatic conditions or if directions are not followed.

Do not apply any other herbicide in conjunction with ORDRAM as injury may occur.

Do not mix with fertilizer.

Do not store near seeds or fertilizer.

Do not contaminate water used for domestic purposes.

Keep container closed when not in use.

Care should be taken not to contaminate lakes or ponds where freshwater fish species are present.

NOTICE: Stauffer Chemical Company makes no warranty, express or implied, including the warranties of merchantability and or fitness for any particular purpose, concerning this material, except those which are contained on Stauffer's label.

USDA Reg. No. 114-0270

Label No. 114-0270

BURN EMPTY BAG—KEEP OUT OF SMOKE

POST-FLOOD, POST-EMERGENCE (Water Seeded or Drilled Rice)

STANDARD TREATMENT:

Rice should be in the seedling stage at the time of application.

FOR AIR APPLICATION ONLY:

Watergrass must be a minimum of 2" high but not higher than 5", and it must be at least 2-3" submerged at time of application. This water level (not less than 2") must be maintained until the watergrass dies—usually 4 to 7 days after application.

Equipment should be carefully calibrated to give a uniform application. Avoid application to be sure spray reaches the watergrass. Avoid application when wind is blowing at speeds over 10 MPH.

To insure proper application of ORDRAM, the field should be divided into sections and application made in a systematic manner.

RATE: 10.60 lbs. per acre.

OR

IN EMERGENCY SITUATIONS: For emergency control of watergrass, ORDRAM may be applied as a pre-emergence treatment. For control of Barnyardgrass, apply 10.60 lbs. per acre.

RATE: 10.60 lbs. per acre. ORDRAM should be applied to the watergrass.
