HARMFUL IF SWALLOWED

STATEMENT OF PRACTICAL TREATMENT

If a known exposure occurs or is suspected, immediately initiate the recommended procedures below. If further treatment is required, contact a Poison Control Center, a physician, or the nearest hospital.

If Swallowed: Immediately give large quantities of water and induce vomiting by gagging the victim with a finger or blunt object placed on the back of the victim's tongue. Give fluids until vomitus is clear. If the victim is unconscious, do not induce vomiting or give anything by mouth.

For Eye Contact: Hold eyelids apart and flush eyes with large amounts of running water for at least 15 minutes. Get medical attention.

For Skin Contact: Wash all affected areas with plenty of soap and water. Seek medical attention if irritation occurs.

If Inhaled: Remove to fresh air. Seek medical attention if respiratory irritation occurs or if breathing becomes difficult.

3.

USE PRECAUTIONS

✓ READ ALL LABEL INSTRUCTIONS BEFORE USING. ORDRAM 10-G should be used only for recommended purposes and at recommended rates. ORDRAM 10-G may cause crop injury under extreme soil or climatic conditions or if directions are not followed. Do not apply any other herbicide in conjunction with ORDRAM 10-G as injury may occur.

Do not mix with fertilizer.

DIRECTIONS FOR USE OF ORDRAM 10-G

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS AND RECOMMENDATIONS FOR PRE-PLANT, PRE-FLOOD USE ON RICE (Water Seeded Rice only):

For use on Rice to control Barnyardgrass (watergrass)(*Echinochloa* spp.)

SOIL PREPARATION: Use only on soils in good tilth. Prepare the soil for seeding according to good agricultural practices. All weed growth must be thoroughly worked into the soil before treatment.

APPLICATION: When ORDRAM 10-G is applied before flooding and planting, application may be made by either air or ground equipment. Application equipment should be carefully calibrated before use and checked frequently during use to be sure application is uniform. Avoid overlaps that will increase ORDRAM 10-G dosage above recommended limits because crop injury may occur. Aerial application should be made only when the wind velocity is low, 0-10 mph.

SOIL INCORPORATION: All applications of ORDRAM 10-G must be incorporated into the soil to a depth of 2 to 3 inches within 6 hours by mechanical incorporation. Incorporation should be done by at least two discings or heavy spike-tooth harrowings. Do not set disc to cut deeper than 4 inches.

RATE: Apply 30 pounds of ORDRAM 10-G per acre.

FLOOD THE FIELD FOR SEEDING AND HOLD THE WATER FOUR TO SIX DAYS FOLLOWING SEEDING.

DIRECTIONS AND RECOMMENDATIONS FOR POST-FLOOD, POST-EMERGENCE USE ON RICE (Water Seeded or Drilled Rice):

For use on Rice to control Barnyardgrass (watergrass)(*Echinochloa* spp.). Rice should be in the seedling stage at the time of application.

FOR AIR APPLICATION ONLY: Barnyardgrass must be a minimum of 2" high but not higher than 5", and it must be at least 2/3 submerged at time of application. This water level (not less than 2") must be maintained until the Barnyardgrass dies.

Equipment should be carefully calibrated before use and checked frequently during use to be sure application is uniform. Avoid overlaps that will increase ORDRAM 10-G dosage above recommended limits because crop injury may occur. Aerial application should be made only when the wind velocity is low, 0-10 mph. To avoid uneven distribution of ORDRAM 10-G, the water flow through the field should be at a minimum at the time of application and for at least 2 hours after application.

HOLD FLOOD WATER A MINIMUM OF 4 DAYS AFTER APPLICATION.

RATE: Apply 30 pounds of ORDRAM 10-G per acre.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, feed, fertilizer or seeds by storage or disposal. Open dumping is prohibited. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide or rinsate that cannot be used according to label instructions must be disposed of according to applicable Federal, State or local procedures.

CONTAINER DISPOSAL: Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of bags in a sanitary landfill or by incineration if allowed by State or local authorities.

NOTICE - READ CAREFULLYCONDITIONS OF SALE

Stauffer (and seller) offer(s) this product for sale subject to, and buyer and all users are deemed to have accepted, the following conditions of sale and warranty which may only be varied by written agreement of a duly authorized representative of Stauffer.

WARRANTY LIMITATION

Stauffer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use on the label subject to the inherent risks referred to below. Stauffer makes no other express warranties: THERE IS NO IMPLIED WARRANTY OF MERCHANTABILITY and there are no warranties which extend beyond the description on the label hereof.

INHERENT RISKS

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks associated with use. Buyer assumes all risks associated with use or application of this product contrary to label instructions or resulting from extraordinary weather conditions.

LIMITATION OF LIABILITY

In no case shall Stauffer be liable for special, indirect, or consequential damages resulting from the use or handling of this product and no claim of any kind shall be greater in amount than the purchase price of the product in respect of which such damages are claimed.
