

PRODUCT INFORMATION

POLE-FUME is a fumigant solution. When used as directed, it will arrest internal decay and control insects present in douglas fir and western red cedar.* During this sterilization of the treated area, a fungitoxic residue is deposited in the cells of the wood. This residue is effective for an indefinite period.

Poles known to have internal decay should be scheduled for treatment before they have decayed to the point where replacement is necessary.

*Other pole species have not been adequately investigated.

USE PRECAUTIONS

READ ALL DIRECTIONS BEFORE USING.

Apply this product only as specified on this label.

Keep children and pets away from treated poles.

Do not store near feed or food.

Keep container tightly closed when not in use.

This product is toxic to fish. Apply only as specified on this label.

NOTICE: Stauffer Chemical Company makes no warranty, express or implied, including the warranties of merchantability and/or fitness for any particular purpose, concerning this material, except those which are contained on Stauffer's label.

POLE-FUME

A FUMIGANT FOR CONTROLLING DECAY AND INSECTS IN WOOD POLES

ACTIVE INGREDIENT:

Sodium methyl dithiocarbamate (anhydrous)

32.7%

INERT INGREDIENTS:

67.3%

100.0%

U.S. Patent Numbers 2,766,554; 2,791,605
EPA Reg. No. 476-2094

Do not store below 0°F.
Product crystallizes at lower temperatures. Warm or store at higher temperatures and mix to redissolve crystals and assure uniformity before use.

CAUTION

HARMFUL IF INHALED OR SWALLOWED.
IRRITATING TO EYES, NOSE, THROAT AND SKIN.
AVOID BREATHING VAPOR.

DO NOT GET IN EYES, ON SKIN, OR ON CLOTHING.
In case of contact, immediately remove shoes and flush skin with plenty of water; for eyes, flush with water for at least 15 minutes and seek medical attention.

Wash and dry clothing and shoes before reuse.
When applying in enclosed areas, wear respirator type passed by the U.S. Bureau of Mines.
