

# Sutan +-ATRAZINE 18-6.G

## GRANULES

### FOR SELECTIVE WEED CONTROL IN FIELD, SWEET, AND SILAGE CORN

#### ACTIVE INGREDIENTS:

Sutan, d, d, -methyl piperidate 18.0%  
 Atrazine, 2-chloro-4-ethyl-6-(1,1-dimethyl-2-pyridin-2-yl)-s-triazine 5.7%  
 Related triazines 0.3%

#### INERT INGREDIENTS:

Sutan U.S. Patent No. 4,110,414 76.0%  
 Inert 100.0%

### CAUTION

Keep Out of Reach of Children

HARMFUL IF SWALLOWED.  
 AVOID CONTACT WITH SKIN AND EYES.  
 AVOID INHALATION OF DUST.  
 WASH WITH SOAP AND WATER AFTER USE OR CONTACT.  
 AVOID CONTAMINATION OF FEED AND FOOL.

READ ALL LABEL DIRECTIONS BEFORE USING

#### WEEDS CONTROLLED

This product will not control established weeds.

##### ANNUAL GRASSES

Barnyardgrass  
 Crabgrass  
 Fall Panicum  
 Giant Foxtail  
 Goosegrass  
 Green Foxtail  
 Seeding Bermudagrass  
 Seeding Johnsongrass  
 Wild Oats  
 Yellow Foxtail  
 \*Texas Panicum, Burdockgrass - California

##### ANNUAL BROADLEAF WEEDS

Carrotweed  
 Cowpea  
 Jimsonweed  
 Yellow Mustard  
 Yellow Nutsedge  
 \*Texas Panicle

##### PERENNIAL GRASSES

Purple Nutgrass  
 Yellow Nutgrass

Existing stands of Nutgrass are controlled by this product. Control of Nutgrass infestations is suggested in areas where the product is used for the control of annual weeds.

#### GENERAL USE PRECAUTIONS

Make only one application per year.  
 After treatment with this product, avoid irrigation or heavy watering.  
 Do not use on alfalfa, soybeans, or other legumes.  
 This product is recommended for use only on corn.  
 Applied as a granule, this product is not intended for use on any other crop.  
 Care should be taken to avoid contact with the product. Irrigation or heavy watering of the product may result in injury to the crop.  
 Do not store near feed or food.  
 Do not contaminate irrigation water or drinking water supplies.

#### DIRECTIONS FOR USE

SUTAN +-ATRAZINE is a selective herbicide for the control of weeds in field, sweet, and silage corn. It is applied as a granule at the time of planting.

#### APPLICATION DIRECTIONS

Apply to field, sweet, and silage corn immediately after planting with incorporation equipment. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using equipment designed for application of granules. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern frequently during the growing period. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern. Avoid application to field, sweet, and silage corn with SUTAN +-ATRAZINE granules during periods of heavy rain or irrigation.

#### INCORPORATION DIRECTIONS

Apply to field, sweet, and silage corn immediately, within minutes, after application to prevent evaporation. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using equipment designed for application of granules. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern frequently during the growing period. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern. Avoid application to field, sweet, and silage corn with SUTAN +-ATRAZINE granules during periods of heavy rain or irrigation.

#### SOIL MIXING (INCORPORATION) BEFORE PLANTING

Apply to field, sweet, and silage corn immediately, within minutes, after application to prevent evaporation. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using equipment designed for application of granules. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern frequently during the growing period. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern. Avoid application to field, sweet, and silage corn with SUTAN +-ATRAZINE granules during periods of heavy rain or irrigation.

#### PLANTING

Apply to field, sweet, and silage corn immediately, within minutes, after application to prevent evaporation. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using equipment designed for application of granules. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern frequently during the growing period. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern. Avoid application to field, sweet, and silage corn with SUTAN +-ATRAZINE granules during periods of heavy rain or irrigation.

#### RECOMMENDATIONS

Apply to field, sweet, and silage corn immediately, within minutes, after application to prevent evaporation. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using equipment designed for application of granules. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern frequently during the growing period. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern. Avoid application to field, sweet, and silage corn with SUTAN +-ATRAZINE granules during periods of heavy rain or irrigation.

NOTE: Apply to field, sweet, and silage corn immediately, within minutes, after application to prevent evaporation. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using equipment designed for application of granules. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern frequently during the growing period. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern. Avoid application to field, sweet, and silage corn with SUTAN +-ATRAZINE granules during periods of heavy rain or irrigation.

#### BEFORE PLANTING (PRE PLANT) APPLICATION

Apply to field, sweet, and silage corn immediately, within minutes, after application to prevent evaporation. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using equipment designed for application of granules. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern frequently during the growing period. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern. Avoid application to field, sweet, and silage corn with SUTAN +-ATRAZINE granules during periods of heavy rain or irrigation.

#### IN ALL OTHER CORN GROWING AREAS

Apply to field, sweet, and silage corn immediately, within minutes, after application to prevent evaporation. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using equipment designed for application of granules. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern frequently during the growing period. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern. Avoid application to field, sweet, and silage corn with SUTAN +-ATRAZINE granules during periods of heavy rain or irrigation.

#### AFTER PLANTING APPLICATION - Note: Recommendations apply only to field and South

Apply to field, sweet, and silage corn immediately, within minutes, after application to prevent evaporation. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using equipment designed for application of granules. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern frequently during the growing period. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern. Avoid application to field, sweet, and silage corn with SUTAN +-ATRAZINE granules during periods of heavy rain or irrigation.

#### NOTE: Apply to field, sweet, and silage corn immediately, within minutes, after application to prevent evaporation.

#### CULTURAL PRACTICES FOLLOWING APPLICATION

Apply to field, sweet, and silage corn immediately, within minutes, after application to prevent evaporation. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using equipment designed for application of granules. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern frequently during the growing period. Apply to field, sweet, and silage corn with SUTAN +-ATRAZINE granules using a checkered pattern. Avoid application to field, sweet, and silage corn with SUTAN +-ATRAZINE granules during periods of heavy rain or irrigation.
