OBSERVE THE FOLLOWING USE PRECAUTIONS

Read all directions before using and use only as specified on this label.

Do not use on seed already treated with an insecticide except for Malathion or Methoxychlor used for control of stored grain insects.

Fish and Wildlife Cautions: Toxic to fish and wildlife. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Treated seed on the soil surface will be hazardous to birds and other wildlife. Dispose of excess treated seed by burial.

IMPORTANT: Treated seed must not be used for human consumption nor as animal feed. Bags containing treated seed should be labeled:

TREATED SEED.

DO NOT USE FOR FOOD, FEED OR OIL PURPOSES.

The federal government and some states have issued regulations for the application of special tags or labels to be affixed to bags containing treated seed. Further specific information on this subject may be obtained from State Agricultural Experiment Stations or the State Agricultural Extension Service.

RECOMMENDATIONS

CAPTAN-DIAZINON 37.5-25 SEED PROTECTANT is a special formulation for the planter box treatment of beans, corn, peas, sorghum and soybeans for the protection of seeds against seed corn beetles, seed corn maggots, damping-off, seed rots, seedling blights and fungus diseases of seeds and seedlings.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Beans, Corn, Peas, Sorghum, Soybeans — Planter Box Application: Use 2 ounces per bushel of seed. Fill the drill box one half full of seed then treat with one half the amount of seed protector and mix well by stirring with a stick or paddle until color is uniform in the seed. Add the remaining seed to drill box and cover with the remainder of the seed protectant. Mix thoroughly as above. Regularly inspect planter plates and clean as required. If the seed treatment increases the friction between seeds, sufficient to reduce the rate of delivery through a grain drill, add 1 ounce of graphite per bushel as a drill lubricant. Adjust the seed drill to give the required rate of seed delivery with treated seed.

8 OUNCE CONTAINER — TREATS 4 BUSHELS.

NOTICE — READ CAREFULLY

CONDITIONS OF SALE Stauffer (and seller) offer(s) this product for sale subject to, and buyer and all users are deemed to have accepted, the following conditions of sale and warranty which may only be varied by written agreement of a duly authorized representative of Stauffer.

WARRANTY LIMITATION Stauffer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use on the label subject to the inherent risks referred to below. Stauffer makes no other express warranties; THERE IS NO IMPLIED WARRANTY OF MERCHANTABILITY and there are no warranties which extend beyond the description on the label hereof.

INHERENT RISKS The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks associated with use. Buyer assumes all risks associated with use or application of this product contrary to label instructions or resulting from extraordinary weather conditions.

LIMITATION OF LIABILITY In no case shall Stauffer be liable for special, indirect, or consequential damages resulting from the use or handling of this product and no claim of any kind shall be greater in amount than the purchase price of the product in respect of which such damages are claimed.
