The standard CLENESCO A-Q solution containing 200 ppm of quaternary ammonium chloride is prepared with one fluid ounce of CLENESCO A-Q to 7 1/2 quarts of water.

A standard use solution of CLENESCO A-Q containing 200 parts per million quaternary ammonium chloride will reduce the bacterial count by 99.999% in waters up to 700 parts per million hardness. This product fulfills the criteria of Appendix F of the Grade "A" Pasteurized Milk Ordinance, 1965 Recommendations of the U. S. Public Health Service in waters up to 700 parts per million hardness, calculated as CaCO₃ when tested by method given in Official Methods of Analysis of the A.O.A.C., 9th Edition.

RINSE EMPTY CONTAINER THOROUGHLY WITH WATER.
DO NOT RE-USE. DISCARD IT.

HOW TO USE CLENESCO A-Q ON THE FARM

MILKING MACHINES AND HOSES

1. Just before milking re-assemble cleaned milker and draw Standard CLENESCO A-Q Solution through it, allowing contact time of 1 minute at 75°F. or higher. Allow equipment to drain prior to beginning of milking operation.
2. Save ⅓ of this solution for rinsing after milking.
3. Immediately after milking, draw clear water through milkers to remove milk film. Continue until water runs clear.
4. Add warm water to the ⅓ used Standard CLENESCO A-Q Solution from Step No. 2 and draw this solution through milkers to remove residual milk.
5. Dismantle and brush all parts in a Standard CLENESCO A-Q Solution at 110°-120°F.
6. Rinse in second tank, using clear water. Store dry to protect all milk-contact surfaces.

FARM UTENSILS — PAILS, STRAINERS

1. Rinse with cold tap water immediately after use.
2. Dismantle if assembled. Brush all surfaces with warm (110°-120°F.) Standard CLENESCO A-Q Solution. Rinse with clear water.
3. Store to protect all milk contact surfaces.
4. Just before use, rinse all surfaces with a fresh 200 ppm of quaternary ammonium chloride at 75°F. or higher, allowing 1 minute contact time. Allow equipment to drain prior to beginning of milking operation.

COWS' UDDERS

1. Saturate a large clean cloth or paper towel with warm Standard CLENESCO A-Q Solution. Use this saturated cloth to wash udders and teats.
2. Wring cloth or paper towel dry. Use it to wipe excess solution from udders.
3. Use a clean towel for EACH ANIMAL. NEVER re-use towel or dip used towel back into solution. ALWAYS use freshly prepared solution and non-corrodible utensils.

The formula for this product contains no more than 9.48% phosphorus as phosphates.
