PRODUCT INFORMATION

MILDUPRUF PLUS is based on a highly-active TWIN CHAIN quaternary ammonium compound. It prevents musty odors and discolorization on all fabrics due to molds, mildew, and fungi. The mildew inhibition of MILDUPRUF PLUS lasts at least four weeks when used as directed. It is designed for commercial and institutional laundry use by addition to the final rinse or sour step. Fabric may also be preserved against mildew by soaking in a solution of MILDUPRUF PLUS. For recommended solution concentration, see Use Directions.

MILDUPRUF PLUS is economical to use because it is concentrated. It should be handled with care.

USE DIRECTIONS

For lasting mildew prevention, use MILDUPRUF PLUS as directed.

— For 2-week protection, use 1/2 ounce per 100 pounds of fabric (dry weight).

— For 3-week protection, use 1 3/4 ounces per 100 pounds of fabric (dry weight).

— 2 1/4 ounces per 100 pounds of fabric (dry weight) will give long-lasting protection, for 30 days or more, against mildew. Re-treat as necessary.

Dilute the appropriate amount of MILDUPRUF PLUS in one to two gallons of water; then add to the washwheel in the final or sour rinse. Re-treat fabric after each washing.

Do not reuse empty drum. Return to drum; reconditioner or rinse well with soap solution and discard. Do not contaminate water by disposal of waste.

MILDUPRUF PLUS

EPA Reg. No. 1935-29

**TWIN CHAIN Quaternary Ammonium Compound Concentrate
 Mildew Inhibitor for Commercial and Institutional Use**

ACTIVE INGREDIENT:

Didecyl Dimethyl Ammonium Chloride **50%**

INERT INGREDIENT **50%**

100%

DANGER! CORROSIVE

**CAUSES SEVERE EYE AND SKIN DAMAGE.
 HARMFUL OR FATAL IF SWALLOWED.**

Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.
