SOLD BY  
**STAUFFER CHEMICAL COMPANY**  
 CHEMICAL SYSTEMS DIVISION  
 WESTPORT, CT. 06880

**PRODUCT INFORMATION**

Fabric treated as directed with **FYBRFLUF G+** will develop residual bacterio-static activity against gram positive (*S. aureus*) and gram negative (*K. pneumoniae*, aberrant) organisms under conditions of high relative humidity or wet contamination.

**FYBRFLUF G+** inhibits the growth of ammonia producing organisms (*B. ammoniagenes*) which act on urine in diapers to produce ammonia.

**FYBRFLUF G+** softens clothes, which helps prevent chafing. It will also reduce "static cling" in nylons and other synthetics. Improves ironing time.

**DIRECTIONS FOR USE**

Use 2 ounces of **FYBRFLUF G+** per 100 pounds of laundry in the rinse cycle.

**DISPOSAL:** RINSE EMPTY CONTAINER THOROUGHLY WITH WATER AND DISCARD IT.

**NOTICE:** Stauffer Chemical Company makes no warranty, express or implied, including the warranties of merchantability and/or fitness for any particular purpose, concerning this material, except those which are contained on Stauffer's label.
