REWARD/TREFLAN* 4-E/METRIBUZIN TANK MIX DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

How to use REWARD and TREFLAN 4-EC and METRIBUZIN (4-L or 50-WP) as a spray tank mix.

A tank mix of REWARD (6 pounds active ingredient per gallon) and TREFLAN 4-EC (4 pounds active ingredient per gallon) and METRIBUZIN 4-L (4 pounds active ingredient per gallon) or METRIBUZIN 50-WP (50% active ingredient by weight) can be used prior to planting for weed control in soybeans.

The combination will control a broader spectrum of weeds than the REWARD/TREFLAN 4-EC tank mix.
