

(Stauffer Shield)

ORDRAM® A 10-G
Granules - Selective Herbicide
For Use on Rice Only

ACTIVE INGREDIENT:	
S-ethyl hexahydro-1H-azepine-1-carbothioate	10.0%
INERT INGREDIENTS:	90.0%
	<u>100.0%</u>

Contains 10 Pounds of Active Ingredient Per 100 Pounds

KEEP OUT OF REACH OF CHILDREN

HARMFUL IF SWALLOWED

STATEMENT OF PRACTICAL TREATMENT

If a known exposure occurs or is suspected, immediately initiate the recommended procedures below. If further treatment is required, contact a Poison Control Center, a physician, or the nearest hospital.

If Swallowed: Immediately give several glasses of water and induce vomiting by gagging the victim with a finger or blunt object placed on the back of the victim's tongue. Give fluids until vomitus is clear. If the victim is unconscious, do not induce vomiting or give anything by mouth.

For Eye Contact: Immediately flush eyes with large amounts of running water for at least 15 minutes. Hold eyelids apart during flushing to ensure rinsing of the entire surface of the eye and lids with water. Get medical attention immediately.

For Skin Contact: Flush all affected areas with plenty of water for several minutes. Seek medical attention if irritation occurs.

If Inhaled: Remove to fresh air. Seek medical attention if respiratory irritation occurs or if breathing becomes difficult.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

C A U T I O N

HARMFUL IF SWALLOWED. Avoid contact with skin, eyes and clothing. Avoid inhalation of dust. Wear rubber gloves and fresh clothing. Wear goggles to avoid contact with eyes. Wash with soap and water immediately after use or contact. Do not contaminate food and feed.

Environmental Hazards - Do not contaminate water used for domestic purposes.

In case of emergency call (day or night) Chemtrec (800)-424-9300 or Stauffer Chemical Company (203)-226-6602.

USE PRECAUTIONS

READ ALL LABEL INSTRUCTIONS BEFORE USING. ORDRAM A 10-G should be used only for recommended purposes and at recommended rates. ORDRAM A 10-G may cause crop injury under extreme soil or climatic conditions or if directions are not followed. Do not apply any other herbicide in conjunction with ORDRAM A 10-G as injury may occur.

Do not mix with fertilizer.

RECOMMENDATIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SOUTHWESTERN REGIONDIRECTIONS AND RECOMMENDATIONS FOR PRE-PLANT, PRE-FLOOD USE ON RICE (Water Seeded Rice only):

For use on Rice to control Barnyardgrass (watergrass)(Echinochloa spp.)

SOIL PREPARATION: Use only on soils in good tilth. Prepare the soil for seeding according to good agricultural practices. All weed growth must be thoroughly worked into the soil before treatment.

APPLICATION: When ORDRAM A 10-G is applied before flooding and planting, application may be made by either air or ground equipment. Application equipment should be carefully calibrated before use and checked frequently during use to be sure application is uniform. Avoid overlaps that will increase ORDRAM A 10-G dosage above recommended limits because crop injury may occur. Aerial application should be made only when the wind velocity is low, 0-10 mph.

SOIL INCORPORATION: All applications of ORDRAM A 10-G must be incorporated into the soil to a depth of 2 to 3 inches within 6 hours by mechanical incorporation. Incorporation should be done by at least two discings or heavy spike-tooth harrowings. Do not set disc to cut deeper than 4 inches.

RATE: Apply 30 pounds of ORDRAM A 10-G per acre.

FLOOD THE FIELD FOR SEEDING AND HOLD THE WATER FOUR TO SIX DAYS FOLLOWING SEEDING.

DIRECTIONS AND RECOMMENDATIONS FOR POST-FLOOD, POST-EMERGENCE USE ON RICE (Water Seeded or Drilled Rice):

For use on Rice to control Barnyardgrass (watergrass)(Echinochloa spp.), Dayflower (Commelina spp.) and suppression of Annual Sedges (Cyperus spp.) and Spikerush (Eleocharis spp.). Rice should be in the seedling stage at the time of application.

STANDARD TREATMENT: Rice must be established at the time of application. Barnyardgrass (watergrass), dayflower, annual sedges and spikerush must not be more than 5 inches high. Barnyardgrass, annual sedges and spikerush must be at least 2/3 submerged. Dayflower must be completely submerged. Floods should be maintained at these depths until the dayflower or watergrass dies or until the annual sedges and spikerush are suppressed.

RATE: Apply 20-30 pounds per acre depending on size and degree of infestation of watergrass. Use 25-30 pounds per acre on annual sedges, spikerush and heavy infestations of dayflower.

IN EMERGENCY SITUATIONS: ORDRAM may be used for suppression (stopping normal development) of BARNYARDGRASS over 5 inches tall and under 12 inches tall. Flood water must be maintained at a 4 to 6 inch depth.

RATE: Apply at 30 pounds per acre.

CALIFORNIA

DIRECTIONS AND RECOMMENDATIONS FOR PRE-PLANT, PRE-FLOOD USE ON RICE (Water Seeded Rice only):

For use on Rice to control Barnyardgrass (watergrass) (*Echinochloa* spp.)

SOIL PREPARATION: Use only on soils in good tilth. Prepare the soil for seeding according to good agricultural practices. All weed growth must be thoroughly worked into the soil before treatment.

APPLICATION: When ORDRAM A 10-G is applied before flooding and planting, application may be made by either air or ground equipment. Application equipment should be carefully calibrated before use and checked frequently during use to be sure application is uniform. Avoid overlaps that will increase ORDRAM A 10-G dosage above recommended limits because crop injury may occur. Aerial application should be made only when the wind velocity is low, 0-10 mph.

SOIL INCORPORATION: All applications of ORDRAM A 10-G must be incorporated into the soil to a depth of 2 to 3 inches within 6 hours by mechanical incorporation. Incorporation should be done by at least two discings or heavy spike-tooth harrowings. Do not set disc to cut deeper than 4 inches.

RATE: Apply 30 pounds of ORDRAM A 10-G per acre.

FLOOD THE FIELD FOR SEEDING AND HOLD THE WATER FOUR TO SIX DAYS FOLLOWING SEEDING.

DIRECTIONS AND RECOMMENDATIONS FOR POST-FLOOD, POST-EMERGENCE USE ON RICE (Water Seeded or Drilled Rice):

For use on Rice to control Barnyardgrass (watergrass) (*Echinochloa* spp.). Rice should be in the seedling stage at the time of application.

FOR AIR APPLICATION ONLY: Barnyardgrass must be a minimum of 2" high but not higher than 5", and it must be at least 2/3 submerged at time of application. This water level (not less than 2") must be maintained until the Barnyardgrass dies.

Equipment should be carefully calibrated before use and checked frequently during use to be sure application is uniform. Avoid overlaps that will increase ORDRAM A 10-G dosage above recommended limits because crop injury may occur. Aerial application should be made only when the wind velocity is low, 0-10 mph. To avoid uneven distribution of ORDRAM A 10-G, the water flow through the field should be at a minimum at the time of application and for at least 2 hours after application.

HOLD FLOOD WATER A MINIMUM OF 4 DAYS AFTER APPLICATION.

RATE: Apply 30 pounds of ORDRAM A 10-G per acre.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, feed, fertilizer or seeds by storage or disposal. Open dumping is prohibited. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide or rinsate that cannot be used according to label instructions must be disposed of according to applicable Federal, State or local procedures.

CONTAINER DISPOSAL: Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of bags in a sanitary landfill or by incineration if allowed by State or local authorities.

NOTICE - READ CAREFULLY

CONDITIONS OF SALE

Stauffer (and seller) offer(s) this product for sale subject to, and buyer and all users are deemed to have accepted, the following conditions of sale and warranty which may only be varied by written agreement of a duly authorized representative of Stauffer.

WARRANTY LIMITATION

Stauffer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use on the label subject to the inherent risks referred to below. Stauffer makes no other express warranties: THERE IS NO IMPLIED WARRANTY OF MERCHANTABILITY and there are no warranties which extend beyond the description on the label hereof.

INHERENT RISKS

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks associated with use. Buyer assumes all risks associated with use or application of this product contrary to label instructions or resulting from extraordinary weather conditions.

LIMITATION OF LIABILITY

In no case shall Stauffer be liable for special, indirect, or consequential damages resulting from the use or handling of this product and no claim of any kind shall be greater in amount than the purchase price of the product in respect of which such damages are claimed.

U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (WH-567) WASHINGTON, D.C. 20460	EPA REGISTRATION NO.	DATE OF ISSUANCE MAR 25 1983
NOTICE OF PESTICIDE: <input type="checkbox"/> ORIGINAL <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended)</i>	TERM OF ISSUANCE	
NAME OF PESTICIDE PRODUCT		
NAME AND ADDRESS OF REGISTRANT (include ZIP code)		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
<input type="checkbox"/> ATTACHMENT IS APPLICABLE		
SIGNATURE OF APPROVING OFFICIAL		DATE MAR 25 1983

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
