		<hr/>
	Total	100.00%

*Equivalent to 0.8% (Butylcarbityl) 6-propylpiperonyl ether and 0.2% related compounds.

KEEP OUT OF REACH OF CHILDREN

CAUTION

Harmful If Swallowed! Do not use or store near heat. Do not spray into open flame. Do not spray directly on feed or food stuffs. Remove or cover milking utensils during spraying.

RECOMMENDATIONS

Food Processing Plants: For control of fruitflies, houseflies, gnats, hornets, flying moths; use 4 ozs. per 1000 cubic feet using a fogging applicator adjusted to produce a fine mist. Direct spray upwards toward ceiling and fill the room with mist. If possible keep room closed for 15 minutes after fogging. Do not use when plant is in operation. Food should be removed from the area or covered during treatment. Food processing surfaces should be covered during treatment or washed before plant operations are resumed.

Meat Packing Plants: Follow directions above.

Dairy Barns and Milk Rooms: For control of stable flies, gnats, mosquitoes, houseflies. Apply as directed above, cover all equipment including feeding and watering equipment. Do not contaminate food and water.

For control of crawling insects such as ants, crickets, roaches and spiders, apply as a coarse spray into infested areas, cracks and crevices. Apply to walls as a coarse spray at the rate of 1 gallon per 750 square feet. This will control flies alighting on these surfaces.

For protection of livestock from horseflies, stable flies, gnats and mosquitoes, apply 1 to 2 oz. lightly misted over the animal to wet the top of the hair. Repeat daily.

WARRANTY

Seller makes no warranty of any kind, express or implied, concerning the use of this material. Buyer assumes all risk of use or handling whether in accordance with directions or not.
