CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contact with skin and eyes. Do not take internally. In case of contact, flush immediately with plenty of water. For eyes, get medical attention. Avoid contamination of food.

DIRECTIONS

Dilute as directed. Do not mix with soap or synthetic detergents.

POTATO HANDLING EQUIPMENT: Disinfection — Wash thoroughly and mop or spray a solution containing one ounce of this material per two gallons of water on all handling equipment. Rinse with potable water if potatoes being handled are for human or animal consumption.

POTATO STORAGE EQUIPMENT: Disinfection of used bags — Soak used bags in a solution containing one ounce of this material per two gallons of water for one hour. Approximately 250 bags can be safely disinfected in 40 gallons of this solution. Change the solution if dirt and other foreign matter accumulation become excessive. Rinse with potable water.

DISINFECTION OF STORAGE AREAS: For seed potatoes only. Wash thoroughly and mop or spray a solution of one ounce of this material per two gallons of water on all Surfaces.
