House & Garden Bug Killer

For flying and crawling bugs

CAUTION:
KEEP OUT OF REACH OF CHILDREN.
Read cautions and directions on back before using.

NET WT. 12 OZ.

House & Garden Bug Killer

REAL-KILL

Kills fast on contact

Kills a variety of bugs indoors and outdoors

Directions:

SHAKE WELL BEFORE USING—HOLD CONTAINER UPRIGHT. Keep nozzle 3 feet from indoor surfaces.

**Flies
Mosquitoes
Gnats
Flying Moths
Wasps
Hornets**

Indoors: Close all doors and windows. Pointing nozzle upward, fill the room with mist. Leave the treated area closed for at least 15 minutes. Ventilate the room when treatment is completed.

Outdoors: Holding container about 24" from shrubs, bushes, and grassy areas, spray with a slow, sweeping motion while moving away from area being treated. Spray with the breeze, allowing mist to drift into shrubbery and other places. Repeat as necessary. As an area spray, mist porches, patios, and picnic areas. Repeat as necessary.

**Roaches
Waterbugs
Spiders
Ants**

Spray directly on insects when possible. Spray baseboards, cracks and crevices, and other hiding places such as in back of and under appliances, sinks, and cupboards in the kitchen. Repeat as necessary.

**Aphids
Climbing Cutworms
Japanese Beetles
Leaf Hoppers
Red Spider Mites
Thrips
White Flies**

Outdoors: For certain ornamental flowers, such as Roses, Gladiola, Azaleas, Chrysanthemums, and other flowering, garden, and house plants, evergreens and deciduous shrubs, spray with a slow, sweeping motion 18" from all plants. Avoid wetting—a light spray kills bugs effectively. Spray plants in short bursts and only when air is still and when temperature is below 90° F. Repeat as needed. Use with caution on young plants and new growth.

CAUTION: Keep out of reach of children. Avoid contamination of food. Cover or remove fish bowls and remove pets.

WARNING: Contents under pressure. Do not puncture or throw container into fire. Do not store in direct sunlight, on stoves, radiators, or any place where temperature exceeds 120° F., which may cause container to burst.

ACTIVE INGREDIENTS: Pyrethrins, 0.27%; *piperonyl butoxide, technical, 0.54%; n-octyl bicycloheptene dicarboximide, 0.54%; petroleum distillate 4.50%.

INERT INGREDIENTS: 94.15%.

*Consists of 0.43% (butylcarbityl) (6-propylpiperonyl) ether and 0.11% related compounds.
