 Net Contents: 1.00 gallon (128 fl. oz.) per gallon as 0.02 lbs. Salt per gallon

**KEEP OUT OF REACH OF CHILDREN
 WARNING**

See Back for Additional Precautionary Statements

Net Contents 1 gallon

Spray weeds and grasses in cracks of walks, drives and patios. Spray edges along walls, drives, patios, around buildings, under fences and other places where plants are not wanted (except lawns). Kills weeds in tree-wells, around shrubs and flower beds.

STOP. READ ENTIRE LABEL BEFORE USE. (Alternate Statement: STOP. Read all instructions inside before using.)
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Option A Directions - Paragraph Format

(Sprinkler Cap Applicator)

HOW TO APPLY:

Remove cap from applicator head and be certain that applicator head is screwed firmly on jug. Invert jug and apply product to thoroughly cover unwanted vegetation. The width of the pattern may be adjusted by either raising or lowering the jug. For top killing vegetation around trees, shrubs and buildings and edging around lawns, fences and sidewalks, hold the jug about 2 to 6 inches from the area to be treated depending upon desired width.

Use just enough product to completely cover foliage of weed, not necessary to soak. The applicator will assist you in obtaining accurate spot weed control easily. Kills on contact only. Accidental spotting of desired plants may be washed off or pruned at time of treatment. Reapply to hard-to-kill weeds, perennial weeds and Bermuda grass patches if green reappears. For best results, apply to weeds in the early growing stage when moisture and high temperatures are promoting vigorous growth.

(Hand Sprayer Applicator)

Sprayer Instructions

How to prime and care for your sprayer

1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. Turn sprayer nozzle one half turn counter-clockwise. Hold sprayer below the level of container and prime by pumping trigger 10-15 times until product is dispensed. Adjust nozzle to a coarse spray or jet stream.
3. To store, turn nozzle to "OFF" position and store with sprayer above level of liquid in container to prevent leakage.

(Trigger Sprayer or Hand Sprayer Applicators)

Turn adjustable nozzle by rotating to deliver a jet stream. A jet stream is less likely to drift. Stand as close to weed or grass as possible. No need to stoop or squat with jet stream spray. Use just enough product to completely cover foliage of weed, not necessary to soak. The applicator will assist you in obtaining accurate spot weed control easily. Kills on contact only. Accidental spotting of desired plants may be washed off or pruned at time of treatment. Reapply to hard-to-kill weeds, perennial weeds and Bermuda grass patches if green reappears. For best results, apply to weeds in the early growing stage when moisture and high temperatures are promoting vigorous growth.

Option B Directions - Numbered Format

(Hand Sprayer Applicator)

How to prime and care for your sprayer

1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. Turn sprayer nozzle one half turn counter-clockwise. Hold sprayer below the level of container and prime by pumping trigger 10-15 times until product is dispensed. Adjust nozzle to a coarse spray or jet stream.
3. To store, turn nozzle to "OFF" position and store with sprayer above level of liquid in container to prevent leakage.

(Trigger Sprayer or Hand Sprayer Applicators)

HOW TO APPLY

STORAGE AND DISPOSAL

Store in a cool, dry area away from heat or open flame. Do not reuse container. Rinse thoroughly before discarding in trash. Securely wrap in several layers of newspaper and discard container in trash.

OPTIONAL POWER PUMP CLAIMS, INSTRUCTIONS & STORAGE AND DISPOSAL DIRECTIONS

Revolutionary (NEW) Power Pump™ - Works like a pressure sprayer! • Refillable • Ready-to-Use Power Pump Pressure Sprayer

Yes, this product is different! Real-Kill Vegetation Killer works in 24 hours and comes in the revolutionary Power Pump™ eliminating the need to squeeze a trigger sprayer over and over again. The Power Pump works like a pressure sprayer - just pump it a few times and spray. And the Power Pump can be refilled up to 5 times with either Real-Kill Vegetation Killer or Chemsico Grass & Weed Killer A for up to a season's worth of convenient weed and grass killing.

STOP (sign). READ ENTIRE LABEL BEFORE USE DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
(Graphics with call outs.)

- 1. CONNECT WAND HOSE TO POWER PUMP BOTTLE.**
Unwrap the wand. Unscrew and discard the **Black Cap** protecting the bottle opening. (graphic)
Push the **Clear Tube** down through the small opening on the bottle. Tightly screw the **Green Hose Connector Cap** onto the bottle. (graphic) Make sure the **Green Button** on the wand is "OFF" or "UP" before pressurizing. (graphic)
- 2. PRESSURIZE THE POWER PUMP.** Break the **Pump Handle "TAB"** with your thumb. (graphic)
Pump 5-10 times to build up pressure. NOTE: The Power Pump bottle may bulge slightly as it is pressurized. Never pressurize by any means other than the pump included. You'll need to pump every once in a while to keep the Power Pump pressurized during use.
- 3. SPRAY WEEDS AND UNWANTED GRASS!** Just depress

the **Green Button** on the wand to spray. If needed, the button can be locked "ON" by pushing it down and forward at the same time. The reverse motion will lock it "OFF" (graphic).

Spray unwanted grass or weeds until wet.

- 4. WILTING OR BROWNING WILL BEGIN IN HOURS.** (graphic)
- 5. REFILLING.** The Power Pump can be refilled up to 5 times with either Real-Kill Vegetation Killer or Chemsico Grass & Weed Killer A. If using Chemsico Grass and Weed Killer A, add 12.8 ozs. of concentrate and dilute to a gallon with water. Use "Fill to Here" mark on the side of the Power Pump bottle as a guide. Make sure the **Green Pump Cap** and the **Black Hose Connector Cap** are tightly secured before repressurizing.

IMPORTANT: Do not refill more than 5 times. Do not use any product other than Real-Kill Vegetation Killer or Chemsico Grass & Weed Killer A in this Power Pump. Incompatible chemicals may damage the pump making it unsafe to use.

USE TIPS:

- For best results, apply on a sunny day when it's above 60° F (graphic). If it rains within 12 hours of spraying, retreating may be necessary.
- Don't spray on desirable plants as this product will kill them, too. Also, don't spray on windy days to avoid drift to desirable plants. Rinse them off immediately with water if contact occurs.
- You may reseed/replant in 48 hours. (graphic)
- Some hard-to-kill weeds and perennial grasses may require more than one application.

STORAGE AND DISPOSAL

Store in a cool, dry area away from heat or open flame. Always release pressure by unscrewing the pump cap before storing. After 5 refills, rinse thoroughly, wrap in several layers of newspaper and discard container in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING: Keep out of reach of children. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. In case of contact

with eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, promptly drink a large quantity of milk, egg white, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician.

ENVIRONMENTAL HAZARDS

Do not apply under conditions involving possible spray contact or drift onto food, forage, vegetables, ornamental plants or other desirable plantings that might be damaged or the crops rendered unfit for sale, use or consumption. This pesticide is toxic to fish and wildlife. Birds and other wildlife in treated areas may be killed. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning equipment or disposal of wastes.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
