Ms. R. Claire Bousquet Realex P.O. Box 15942 St. Louis, MO 63114-0642

Dear Ms. Bousquet:

Subject: Replacement Formula - Label
Real-Kill Automatic Indoor Flea Fogger 11
EPA Registration No. 478-122
Your Submission Dated June 7, 1990

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

It is understood that the formula statement dated May 17, 1990 replaces previously approved formulas for this pesticide. Use of methylene chloride as a solvent would no longer be consistent with the terms of registration. This is not an alternate formula; it replaces the earlier statement.

Submit product-specific chemistry data for this replacement formula and product. Refer to Part 158, Subpart C of Title 40 of the Code of Federal Regulations. Submit full details of the study on which the claim flashpoint/flame extension - None - is based, including identity of test substance. Based on the propellent, we would expect EXTREMELY FLAHMABLE or PLAMMABLE markings to be appropriate for this formulation.

Sincerely yours,

Phil Hutton
Product Manager (17)
Insecticide-Podenticide Branch
Registration Division (H7505C)
