

ACCEPTED
WHOLESALE
BY EPA REG. NO. 482-6

DEC 15 1982

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.
482-6

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS
DANGER**

Keep Out of Reach of Children. Corrosive Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent, convulsions may be controlled by cautious intravenous injection of a short-acting barbiturate drug.

**ENVIRONMENTAL HAZARDS
FISH AND WILDLIFE
PRECAUTIONS**

This pesticide is toxic to fish. Do not discharge into lakes, streams, or ponds or public waters. Do not contaminate water by cleaning of equipment or disposal of waste.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

PESTICIDE DISPOSAL — Pesticide or residue that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place.

CONTAINER DISPOSAL — Do not reuse empty drum. Return to drum conditioner or dealer by perforation, crushing and burying in a safe place.

SWIMMING POOL ALGAECIDE

CONCENTRATED SWIMMING POOL ALGAECIDE
KEEPS POOL WATER CLEAR AND FREE OF VISIBLE ALGAE
CONTROLS ALGAE SLIME IN BOTH SWIMMING POOLS
AND OUTSIDE SPA/WHIRLPOOL/HOT TUB BATHS.

ACTIVE INGREDIENTS:

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)	5%
dimethyl benzyl ammonium chlorides	5%
n-Alkyl (65% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides	90%
INERT INGREDIENTS:	100%

DANGER

**KEEP OUT OF REACH OF CHILDREN
"ONLY FOR SALE TO, USE,
AND STORAGE BY SERVICE PERSONS."**

See side panels for additional precautionary and first aid statements.

Manufactured for:
Nord Chemical Company
P.O. Box 6512
Duluth, Minnesota 55806

E.P.A. Reg. No. 482-6
E.P.A. Est. No. 482-MN-1
Net Contents 1 Quart

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Initial Dose: Add 1 gallon Crystpool swimming pool algaecide to 50,000 gallons of pool water.

Maintenance Dose: Add 1 quart Crystpool swimming pool algaecide to 50,000 gallons of pool water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% pre week of pool capacity, add 1 quart of Crystpool for each 10,000 gallons of fresh make-up water added pre week.

When swimming season is over, add 1 gallon of Crystpool to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

When Crystpool is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium mundatum* (black algae), *Phormidium tetz.* (Square D algae), *Lyngba versicolor* (blue green) and other swimming pool algae.

Crystpool is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other water-treating chemicals. Crystpool works best when added by itself directly to pool water. Crystpool at use dilution is non-corrosive to inanimate surfaces.
