This spray, when applied as directed will control the exposed stages of confused flour beetles, cadellie, flat grain beetle, meal worms, dermestids, roaches, silverfish, Mediterranean flour moth, Indian meal moth and other closely related insects.

DIRECTIONS

Apply this spray, for best results in those places where the insecticide will come in contact with the exposed stages of the insects described above. Direct the spray around the bases of machinery in cracks and corners where insects are likely to harbor.

It is suggested approximately one gallon of The Industrial Pyrethrin Company Pyrethrin Oil Spray Special be applied to 1,000 square feet as a coarse mist for best results. Surface sprays should not be applied to walls and ceilings near vessels that are to be used for processing food since insects that are partially paralyzed may drop into them.

INDUSTRIAL PYRETHRIN COMPANY
1000 EAST 100TH AVENUE
DENVER, COLORADO 80231

WARRANTY

The Industrial Pyrethrin Company warrants that the product conforms to its label and that it is effective for the purposes stated on the label when used in accordance with directions thereon. This warranty is void where prohibited by law.

Dear Ms. Sims:

Subject: Wiaru Pyrethrum Oil Spray Special
EPA Registration No. 485-19
Your Amended Application of July 19, 1983

We have no objection to the proposed label changes regarding the product name, precautionary statements, warranty statement, and use in USDA meat and poultry processing establishments. However, with respect to the use in USDA meat and poultry processing establishments, you must submit verification of USDA/FSIS approval before releasing this product for shipment.

A stamped copy of the draft labeling is enclosed for your records.

If you have any questions, please contact me at (703) 557-2690.

Sincerely yours,

Timothy A. Gardner
