

THIS PRODUCT FOR USE BY TRAINED PERSONNEL ONLY.

**CAUTION KEEP OUT OF REACH OF CHILDREN
PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS**

Harmful if swallowed. Avoid breathing vapor. Avoid contact with skin, eyes, or clothing. Wear mask or respirator of type recommended by NIOSH (National Institute for Occupational Safety or Health) to give adequate protection against this material. Wear protective clothing. Wash exposed skin with soap and water after handling and before eating. Wash all contaminated clothing with soap and water separately from other clothing before re-use. If swallowed do not induce vomiting. Call a physician immediately.

Do not apply directly to food in commercial food handling facilities, cover or remove any food during application. Do not apply space spray while food processing is underway. After space spraying in food processing plants, wash all equipment, benches, shelving, etc. where exposed food will be handled, with potable water. In case washing is impractical, do not allow food to come in contact with treated surfaces for at least 48 hours. In the home all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use.

Remove pets, birds and cover fish aquariums before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling

—STORAGE AND DISPOSAL—

STORAGE: Store in a cool, dry, well ventilated place. Keep container closed.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

FOR CONTAINERS ONE GALLON AND UNDER: Do not reuse empty container. Wrap container and put in trash.

FOR CONTAINERS OVER ONE GALLON:

METAL CONTAINERS: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by State and Local authorities.

PLASTIC CONTAINERS: Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PYRETHRIN OIL SPRAY CONCENTRATE

A Pyrenone® spray concentrate especially designed for use around food plants where food products are prepared, handled or stored.

ACTIVE INGREDIENTS:

Technical Piperonyl butoxide	5.00%
Pyrethrins	50%
Petroleum distillate	94.50%
Reg-Trade-Mark-Fairfield-American-Corporation	100.00%
*Equivalent to 4.00% (Butylcarbityl) (6-propylpiperonyl) ether and 1.00% of related compounds.	

**CAUTION KEEP OUT OF REACH OF CHILDREN
STATEMENT OF PRACTICAL TREATMENT**

If swallowed — Call a physician immediately. Gastric lavage is indicated if material was taken internally DO NOT INDUCE vomiting unless other treatment is not available. Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled — Remove victim to fresh air. Apply respiration if indicated.

If on skin — Wash immediately with soap and water.

If in eyes — Flush eyes for at least 15 minutes with water. Call a physician immediately. See additional precautionary statements.

E.P.A. Reg. No. 485-20

E.P.A Est. No. 3824-MO-1

Manufactured for
THE INDUSTRIAL FUMIGANT COMPANY
601 East 150th St., Olathe, Kansas 65061

The Industrial Fumigant Company Pyrenone® Oil Spray Concentrate when applied as directed will control exposed stages of the confused flour beetle, cadelle, flat grain beetle, meal worms, dermestids or carpet beetle, roaches, silverfish, Mediterranean flour moth, Indian meal moth and spider beetles.

DIRECTIONS:

Dilute The Industrial Fumigant Company Pyrenone® Oil Spray Concentrate at the rate of one gallon concentrate to one gallon of oil and apply this spray directly to floors, walls and other areas where insects are likely to hide. The spray should be applied to cracks and crevices, behind baseboards, door and window trim, beneath machinery and behind cabinets. Every effort should be made to contact the insect directly with the spray application. Spray application should be repeated as often as needed.

Surface application of this spray to walls and ceiling, should be made only after food or feed processing equipment is covered to prevent contamination of this equipment by spray mist or falling insects.

DIRECTIONS—Continued.

It is suggested that The Industrial Fumigant Company Pyrenone® Oil Spray Concentrate be applied at the rate of one gallon of diluted spray to 1,000 square feet of surface for best results.

The Industrial Fumigant Company Pyrenone® Oil Spray Concentrate may be diluted at the rate of 1 gallon of concentrate with 1 gallon of deodorized kerosene or other suitable petroleum distillate and used with mechanical or thermal fog generators for the control of exposed stages of flies, mosquitoes, wasps, hornets, flying moths, and gnats.

Dosages may vary with different fogging generators but most such applicators are designed to give most effective results when one pint of diluted spray is used for each 6,000 to 10,000 cubic feet of space. In all cases dosages should be sufficient to thoroughly fill the enclosure with fog or vapor.

DO NOT EXCEED A DOSAGE OF 1 GALLON IN 50,000 CUBIC FEET OF SPACE.
