## PYRENONE<sup>®</sup> CONCENTRATE 101

<sup>®</sup>Reg. Trade Mark F.M.C.

**DIRECTIONS:** Winru Pyrenone Concentrate 101 is an oil base concentrate to be used as a contact or fogging spray for the control of accessible stages of many pest insects in food processing plants, feed mills, homes, and industrial plants.

Winru Pyrenone Concentrate 101 should be diluted at the rate of 1 gallon of concentrate to 9 gallons of petroleum distillate. The resulting spray should be applied liberally to cracks and crevices and other hidden areas in order to contact the exposed stages of silverfish, ants, roaches, spiders, psocids (booklice), house centipedes, and certain other insect pests.

For flying insects such as mosquitoes, flies, gnats, moths and similar insects, the infested area should be closed and filled with a fine mist or fog and left closed for at least 10 minutes after treatment. At close of period, sweep up and destroy fallen insects. Repeat treatment as needed.

### ACTIVE INGREDIENTS: 100%

**Technical piperonyl butoxide .....	12.15%
Pyrethrins .....	1.22%
Petroleum distillate .....	86.63%

\*\*Equivalent to 9.72% (butylcarbityl) (6-propylpiperonyl) ether and 2.43% of related compounds.

### CAUTION: KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED.

Use in food processing areas only when the plant is not in operation.

When used as a direct contact spray, food should be protected during the treatment.

Working surfaces must be protected or cleaned before re-use.

### DIRECTIONS (Continued):

This concentrate is highly suited for use in various types of fog or mist producing machines. For equipment which produces fog by mechanical shearing or by heat, one gallon of concentrate should be mixed with 4 gallons of petroleum distillate or deodorized kerosene and fogged into cracks and crevices and into the open space of the room. Do NOT exceed a coverage of 1 gallon of spray solution for each 50,000 cubic feet.

Do not store, spray or otherwise expose this insecticide toward or near an open flame.

Cover or remove aquaria in areas to be treated.
