WINRU

20% CHLORDANE CONCENTRATE

Winru 20% Chlordane concentrate is an oil base concentrate containing 20% Chlordane by weight in an odorless, stainless petroleum distillate. When properly applied as a 2% solution it will effectively control the exposed stages of flies, mosquitoes, gnats, ants, roaches, silverfish, flour beetles, granary and rice weevil, cadelle and other similar stored product insect pests.

DIRECTIONS: To prepare a 2% oil spray, dilute one gallon Winru 20% Chlordane concentrate with ten gallons of petroleum distillate or deodorized kerosene.

For the Control of Roaches, Ants, Silverfish, Flour Beetles and other insects listed above in homes, food manufacturing plants and storage warehouses, use a 2% solution spray and apply as a spot treatment for residual effect in areas frequented by those insects, hitting directly as many of the insects as possible. Pay particular attention to cracks, crevices and other places of concealment. Spray around plumbing and dark corners. Repeat treatment as needed.

In Flour Mills and Elevator Storage stored product insect pests may be controlled by the application of a 2% solution to floors and walls of tunnels, workhouses and gallery floors, and of work floors of mills. Do NOT treat grain bins or bulk flour storage bins.

U.S.D.A. Reg. No. 1700-30

ACTIVE INGREDIENTS 100%

*Technical chlordane	20%
Petroleum distillate	80%
	100%

*Equivalent to 12.0% Octachloro-4,7-Methanotetrahydroindane and 8.0% related compounds.

**CAUTION: KEEP OUT OF REACH OF CHILDREN.
HARMFUL IF SWALLOWED.**

DO NOT USE IN EDIBLE PRODUCTS AREAS OF FOOD PROCESSING PLANTS.

Working surfaces must be protected or cleaned before re-use. See right panel for additional cautions.
