WINRU

METHOXYCHLOR CONCENTRATE

A Water Miscible and Oil Soluble Concentrate

ACTIVE INGREDIENTS:

*Technical Methoxychlor	24%
Aromatic Petroleum Derivative Solvent	71%
INERT INGREDIENTS	5%

100%

*Equivalent to 21.2% 2,2-bis (p-methoxyphenyl)-1,1,1 trichloroethane and 2.8% other isomers and reaction products

WINRU METHOXYCHLOR CONCENTRATE is a residual insecticide concentrate for the control of exposed stages of cereal and grain insects such as Confused Flour Beetle, Rice Weevil, Sawtooth Grain Beetle and Indian Meal Moth. It is also effective for controlling such other pests as Roaches, Black Carpet Beetles, Silverfish.

WINRU METHOXYCHLOR CONCENTRATE contains 24% Methoxychlor (2 lb. per gallon). For residual application dilute one gallon of concentrate with 7 gallons of water or insecticide base oil. Winru Methoxychlor when diluted as directed is recommended for use in flour mills, grain elevators and similar grain processing and food handling plants.

IMPORTANT. Close all open containers and processing equipment before spraying. Do not apply directly to any feed or food-stuffs, or to bags or other absorptive containers. Buildings should be cleaned of excessive quantities of dirt and dusts before applying the insecticide.

U.S. PAT. NO. 2,733,455

CAUTION: KEEP OUT OF REACH OF CHILDREN.

Methoxychlor when in solution can be absorbed through the skin. Avoid inhalation and skin contact. Avoid contact with food, foodstuffs, or food containers. Keep away from heat or open flame. In case of contact wash with plenty of soap and water. For eyes flush with water and get prompt medical attention. Not for Household Use.

DIRECTIONS FOR RESIDUAL APPLICATION: For the control of the insects listed, dilute according to directions and apply as a coarse spray at the rate of 1 gallon to each 400 to 1000 square feet, depending on the surface to be treated. The heavier applications are required for unpainted wood, concrete, and rough surfaces.

Apply behind processing machinery, and to walls, floors, windows, doors, and similar areas where insects congregate or hide, and to their breeding places. Pay particular attention to cracks and crevices from which insects may emerge.

CAUTION: Methoxychlor when in solution can be absorbed through the skin. Avoid inhalation and skin contact. Avoid contact with food, foodstuffs, or food containers. Keep away from heat or open flame. In case of contact wash with plenty of soap and water. For eyes flush with water and get prompt medical attention. Not for Household Use.
