WINRU PYRO-MAL

As an aid in controlling fungus beetle, saw-toothed beetle and confused flour beetle in warehouses, boxcars, trailers and other non-food processing or storage areas, thoroughly treat infested cracks and other hiding or resting places with a solution of 1 part Pyro-Mal mixed with 6 parts water. Apply with a paint brush or pressure sprayer to surfaces until wet. Apply behind moldings or baseboards and around pipes through walls or floors. Apply to any opening through which insects are likely to crawl when they come out of hiding. Repeat as often as necessary to maintain effective control.

For the control of ants, paint or wet surfaces with a coarse spray of 1 part Pyro-Mal to 6 parts water. Treat areas around door sills, and window frames where these insects may enter. Treat any obvious ant trails, the openings around heat ducts, pipes, electrical outlets and baseboards. Use coarse spray liberally in cracks and crevices. Repeat as often as needed. For the control of carpet beetles, make localized application of a solution of 1 part Pyro-Mal to 6 parts water to areas of the floor and baseboards. Shelves and cracks in closets or storage cabinets should also be treated. The underside of carpets should be treated wherever possible. Particular attention should be given to that part of carpeting at the wall edge and in corners. Repeat as needed to maintain residual action.

Winru Pyro-Mal may be used outdoors as an aid in reducing annoyance from flies, wasps, and small flying moths. Paint or spray outside surfaces of screens, doors and window frames with a solution of 1 part Pyro-Mal to 6 parts water. Areas around lights, porches or vestibules should also be treated. Repeat treatment as often as need to maintain residual action.

FOOD HANDLING ESTABLISHMENTS—Places other than private residences in which exposed food is held, processed, prepared or served.

FOOD AREAS—APPLICATION OF PYRO-MAL IS LIMITED TO CRACK AND CREVICE TREATMENT.

An insecticidal formulation combining the knockdown and insect flushing characteristics of Pyrenone® with the residual effect of Malathion.

ACTIVE INGREDIENTS:

Malathion (0,0-dimethyl dithiophosphate of diethyl mercaptosuccinate) -----	20.00%
Pyrethrins -----	0.50%
*Technical piperonyl butoxide -----	1.25%
Aromatic petroleum hydrocarbons -----	67.25%

INERT INGREDIENTS:

Octylphenoxypolyethoxyethanol with Calcium dodecylbenzenesulfonate -----	11.00%
	<u>100.00%</u>

*Equivalent to 1.00% (butylcarbityl) (6-propylpiperonyl) ether and 0.25% related compounds.

®Pyrenone -- Reg. U.S. Patent Office--(FMC)
 The malathion contained in this formulation is from premium grade technical Malathion (Cythion)®

CAUTION: KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED. Avoid breathing of spray mist. Avoid contact with skin. Wash thoroughly after using. Avoid contamination of feed or foodstuffs. Malathion may cause cholinesterase inhibition. If poisoning occurs get prompt medical aid. Atropine is antidotal.

Aids in the control of pantry pests (exposed stages of saw-toothed grain beetle, flour beetles, rice weevil, cigarette beetle, drug store beetle, and Indian meal moth) and roaches, silverfish, ants or spiders which are likely to be found hiding in these areas.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

Do not use this product in conduits, motor housings, and electrical switch boxes.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

NON-FOOD AREAS—Includes garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Apply a solution of 1 part Pyro-Mal to 6 parts water as a spot treatment to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.

DO NOT REUSE EMPTY CONTAINER. DESTROY IT BY PERFORATING OR CRUSHING. BURY OR DISCARD IN A SAFE PLACE AWAY FROM WATER SUPPLIES.

CAUTION: DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.

This product should not be used near streams or ponds. Do not use only when weather conditions do not permit water to be applied. This product only
