## OIL SOLUBLE SPECIAL RESIDUAL CONCENTRATE No. 2

An insecticidal formulation designed for use in food manufacturing plants combining the knockdown and insect flushing characteristics of Pyrenone<sup>®</sup> with the residual effect of Malathion.

### ACTIVE INGREDIENTS:

Aromatic petroleum hydrocarbons .....	77.25%
Malathion (0,0-dimethyl dithiophosphate of diethyl mercaptosuccinate) .....	20.00%
**Technical piperonyl butoxide .....	1.25%
Pyrethrins .....	0.50%

INERT INGREDIENTS: .....	1.00%
	<hr/>
	100.00%

\*\*Equivalent to 1.00% (butylcarbityl) (6-propylpiperonyl) ether and 0.25% related compounds.

Pyrenone - Reg. U.S. Patent Office (FMC)  
The malathion contained in this formulation is from premium grade technical Malathion (Cythion).<sup>†</sup>

**CAUTION: KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED.**

Avoid breathing of spray mist. Avoid contact with skin. Wash thoroughly after using. Avoid contamination of feed or food-stuffs. Malathion may cause cholinesterase inhibition. If poisoning occurs get prompt medical aid. Atropine is antidotal.

As an effective control of insects, apply this concentrate to floors, walls, baseboards, boxcars, trailers and other non-food surfaces. Thoroughly treat crevices, cracks, beneath panels, boxcar and truck sideboards and behind cabinets with a solution of 1 part Special Residual Concentrate #2 mixed with 6 parts insecticide base oil. Apply with a paint brush or pressure sprayer to surface until wet. Apply behind moldings or baseboards and around pipes through wall openings. Apply to any opening through which insects are likely to crawl when they come out of hiding. Repeat as often as necessary to maintain effective control.

For the control of ants, paint or wet surfaces with a coarse spray of 1 part Special Residual Concentrate #2 to 6 parts insecticide base oil. Treat areas around door sills, and window frames where these insects may enter. Treat any obvious ant trails, the openings around heat ducts, pipes, electrical outlets and baseboards. Use coarse spray liberally in cracks and crevices. Repeat as often as needed.

For the control of carpet beetles, make liberalized application of a solution of 1 part Special Residual Concentrate #2 to 6 parts insecticide base oil to areas of the floor and baseboards. Shelves and cracks in closets or storage cabinets should also be treated. The underside of carpets should be treated whenever possible. Particular attention should be given to that part of carpeting at the wall edge and in corners. Repeat as needed to maintain residual action.

Winru Special Residual Concentrate #2 may be used outdoors as an insect repellent to prevent flies, wasps, June bugs and other insects from entering. For this use spray outside surfaces of screens, doors and windows with a solution of 1 part Special Residual Concentrate #2 to 4 parts insecticide base oil. Areas around lights, porches, patios, etc. should also be treated. Repeat treatment as often as needed to maintain residual action.

**FOOD HANDLING ESTABLISHMENTS** - Places other than private residences in which exposed food is held, stored, transported, prepared or served.

concentrate #2 in 6 parts insecticide base oil as a spot treatment to handboard areas around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide through which they may enter.

Aids in the control of pantry pests: exposed stages of saw-toothed grain beetle, flour beetles, rice weevil, cigarette beetle, drug store beetle, and Indian meal moth) and roaches, silverfish, ants or spiders which are likely to be found hiding in these areas.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

### APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

NON-FOOD AREAS - Includes garbage rooms, lavatories, floor drains, stairs, sewers, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Apply a solution of 1 part Oil Soluble Special Residual Concentrate #2 in 6 parts insecticide base oil as a spot treatment to handboard areas around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide through which they may enter.

DO NOT REUSE EMPTY CONTAINER. DESTROY BY PERFORATING OR CRUSHING. BURY OR DISCARD IN A SAFE PLACE AWAY FROM WATER SUPPLIES.

CAUTION: DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.

This product should be stored in a cool, dry place in a well-ventilated area. When weather conditions are unfavorable, water by cleaning with water as specified.
