WINRU

SBP-1382[®] INSECTICIDE SPRAY

A new synthetic pyrethroid for controlling household insect pests.

Winru SBP-1382 Insecticide spray is designed for use in homes, restaurants, food processing plants, hospitals, hotels, motels, offices and grocery markets.

When used in food processing plants or other areas where food is prepared or displayed the following cautions must be observed:

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using this product in these areas, apply only when the facility is not in operation.

DIRECTIONS

FOR FLIES, MOSQUITOES, AND GNATS: Close doors and windows. Spray freely toward ceiling in all directions until room is filled with mist, then leave the room. Keep doors closed for at least 15 minutes. Ventilate the room when treatment is completed.

E.P.A. REG. NO. 1700-182

PEST CONTROL INDUSTRY

ACTIVE INGREDIENTS:

*†(5-Benzyl-3-furyl)methyl 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate	0.250%

Handwritten notes and a small rectangular stamp at the bottom of the page.

DIRECTIONS

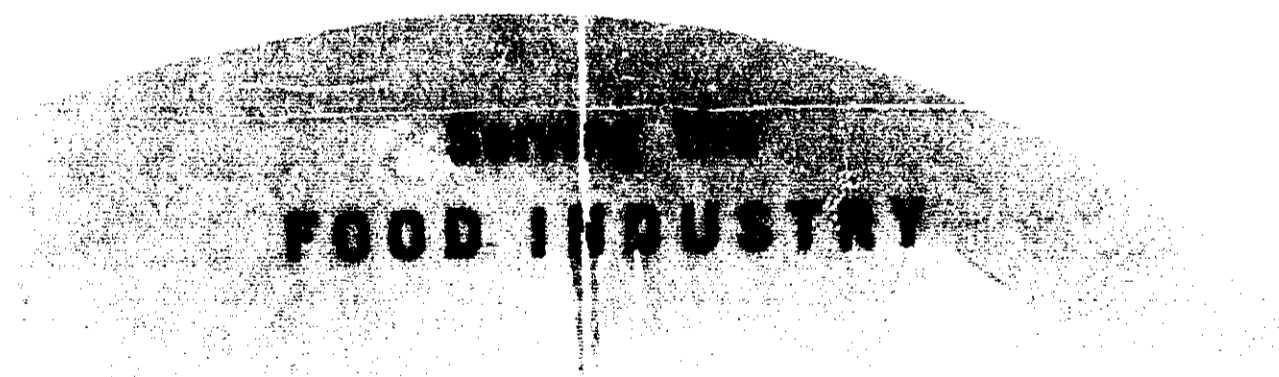

WASPS: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

ROACHES (American and German species), EARWIGS, SPIDERS, GRAIN MITES, SOWBUGS AND CENTIPEDES: Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage areas. Spray directly on insects where possible. Repeat as necessary.

ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

Do not reuse container. Destroy when empty.

Handwritten scribbles or marks.
