

491-113

# SELIG'S PB-100

## ACTIVE INGREDIENTS: 100%

Petroleum Distillates, N-Octylbicycloheptenedicarboximide, \*Technical Piperonyl Butoxide, Pyrethrin, and Essential Oils. \*Butyl Carbityl (6-Propyl Piperonyl) Ether and Related Compounds.

An effective fast acting insecticide formulated especially for use in food processing plants, bottling plants, dairies, bakeries, frozen food lockers, meat packing plants, and flour and feed mills.

PB-100 kills on contact the exposed stages of:

Roaches	Ants
Silverfish	Flies
Gnats	Mosquitoes

## DIRECTIONS

For most effective results against the active stages of the above named insects, use in a good sprayer adjusted to deliver a fine mist. Treat infested areas thoroughly and whenever possible, keep doors and windows closed for 10 minutes after spraying.

Remove exposed meats before spraying in meat packing plants and clean premises by thorough washing after completion of application.

**FLYING INSECTS:** For control of flies, mosquitoes, gnats and many other flying pests, direct the spray toward the upper portions of the room and saturate the atmosphere with the mist, using 2 to 3 ounces to each 1000 cubic feet of space.

**CRAWLING INSECTS:** To control roaches, silverfish, spray infested areas thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames, and pipes toward drains and dark corners, and into cracks, crevices, recesses and similar hiding places.

**AGAINST ANT INFESTATIONS,** treat shelves, cabinets and storage areas, spray ant runs, trails, baseboards, thresholds and other places of entry, and treat nests liberally.

PB-100 is an excellent insecticide for use as a vapor, fog or mist spray in special generators. Regulate dosage in accordance with equipment manufacturers' directions for the particular type of applicator employed. Application should be sufficient to thoroughly fill the enclosure with fog, mist or vapor. Repeat all treatments as necessary.

Harmful if swallowed. Do not spray near or toward an open flame. Do not apply directly to foodstuffs.
