Attention: Michelle Nooney
Chemist, Regulatory Affairs

Gentlemen:

Subject: Selig's Pinatol Disinfectant and Deodorant.
EPA Registration No. 491-121
Your Amendment Dated July 13, 1990

This is in response to your request to amend the registration of the subject product by redesignating certain active ingredients as inert ingredients.

The removal of Isopropanol and Potassium Tall Oil Soap from the active ingredients and inclusion of them in the inert ingredients is in compliance with the current EPA Label Improvement Program and is therefore acceptable. The revised Confidential Statement of Formula satisfactorily fulfills our requirements in this regard.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you:

1. Make the following labeling revision before you release the product for shipment bearing the amended labeling:

- Revise the ingestion statement to read:

If Swallowed: Drink one or two glasses of water. Get immediate medical attention.

2. Submit the revised final printed labeling for inclusion in the product file.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the edited labeling is enclosed for your records.

If in the future, when applying for any type of amendment to a registered product, you must submit a properly executed application form. A couple of forms are enclosed for your convenience.

If you have any questions in this regard, please contact Ms. Ruth Douglas at (703) 557-3842.

Sincerely yours,

Walter C. Francis
