July 24, 1971
UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND ROENTGENIC ACT
FOR ROENTGENIC EQUIPMENT REGISTE-
RED UNDER NO. 491-130

SELIG'S SELCOCID

ACTIVE INGREDIENTS 100%

Petroleum Distillates; N-Octylcycloheptenedicarboximide; *Technical Piperonyl Butoxide; Pyreth-
rins, and Essential Oils...
*(butylcarbityl) (6-propylpiperonyl) ether and related compounds.

An effective fast acting insecticide formulated especially for use in food processing plants, bottling
plants dairies, bakeries, frozen food lockers, meat packing plants, and flour and feed mills.

Kills on contact the exposed stages of:

Roaches	Ants
Silverfish	Flies
Gnats	Mosquitoes
Grain Weevils	

DIRECTIONS:

For most effective results against the active stages of the above named insects, use in a good sprayer
adjusted to deliver a fine mist. Treat infested areas thoroughly and whenever possible, keep doors and
windows closed for 10 minutes after spraying.

FLYING INSECTS: For control of flies, mosquitoes, gnats and certain other flying pests, direct the
spray toward the upper portions of the rooms and saturate the atmosphere with the mist, using 2 to
3 ounces to each 1000 cubic feet of space.

CRAWLING INSECTS: To control roaches, silverfish, and exposed stages of grain weevils, thoroughly
spray infested areas and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door
and window frames, and pipes; toward drains and dark corners and into cracks, crevices, recesses
and similar hiding places.

AGAINST ANT INFESTATIONS treat shelves, cabinets and storage areas, spray ant runs, trails, base-
boards, thresholds and other places of entry and treat nest liberally.

An excellent insecticide for use as a vapor, fog or mist spray in special generators. Regulate dosage in
accordance with equipment manufacturers' directions for the particular type of applicator employed.
Application should be sufficient to thoroughly fill the enclosure with fog, mist or vapor. Repeat all
treatments as necessary.

CAUTION KEEP OUT OF THE REACH OF CHILDREN

Harmful if swallowed. Do not spray near or toward an open flame. Do not apply directly to foodstuffs.
Use as a space spray in food processing plants only when plant is not in operation. Foods should be
removed or covered during treatment. All food processing surfaces should be covered or thoroughly
cleaned before using.
