**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
& DOMESTIC ANIMALS
WARNING**

Harmful if swallowed. Avoid breathing vapor and contact with skin and eyes. Remove pets and bird cages from rooms being sprayed. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using. When using the product in these areas apply only when the facility is not in operation.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

WARRANTY STATEMENT

This product is designed exclusively for Industrial and Institutional use by trained professional maintenance personnel. Label directions and precautions must be followed exactly. Selig Chemical Industries will not be responsible for injury, loss, or damage if product is used in any manner not in compliance with label directions or if precautions are not observed.

**SELIG'S
VAPORIZER SPRAY X-T**

ACTIVE INGREDIENTS:

Pyrethrins	.30%
*Technical Piperonyl Butoxide	.60%
N-Octyl Bicycloheptene Dicarboximide	1.00%
**INERT INGREDIENTS	98.10%
	100.0%

*Equivalent to 0.48% (butylcarbamyl) (6-propylpiperonyl) ether and 0.12% related compounds.

**Contains Petroleum Distillates

**KEEP OUT OF REACH OF CHILDREN
WARNING**

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call a Physician or Poison Control Center immediately. Drink 1 or 2 glasses of water. **DO NOT** induce vomiting. Product contains petroleum distillates and aspiration pneumonia is a potential hazard.

If Inhaled: Remove victim to fresh air, and provide adequate ventilation. Apply artificial respiration if indicated.

If on skin: Flush skin with plenty of water. Wash with soap and water after handling.

If in eyes: Immediately flush eyes with plenty of water. If irritation persists, get medical attention.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Combats flies, mosquitoes, cockroaches. Close all doors and windows in room while using. For flies and mosquitoes use 1 1/2 ounces per 1,000 cubic feet of closed room space. For cockroaches, use 3 ounces per 1,000 cubic feet of closed room. Keep room closed for 10 minutes following treatment. Do not remain in treated areas. Ventilate the area after treatment is completed. Use in Fogmaster Fog Generator which dispenses approximately 2 ounces in one minute on the low setting. Be sure that a sufficient amount is used to thoroughly fog the entire room so that the vapor actually envelopes the bodies of the insects to be killed. When used on roaches, direct spray into cracks and crevices for control of these pests. After operating Fogmaster for the required length of time, examine room and if live flies, mosquitoes, and cockroaches still appear, repeat procedure. When finished, sweep dead and stunned insects from the floor and dispose of same. Thorough and repeated spray of infested area is recommended for control of roaches.

**EFFECTIVE AGAINST COMMON PESTS FOUND IN
GRAIN STORAGE BUILDINGS**

When used as a space spray in grain storage buildings, will kill the exposed stages of grain weevils and flying grain moths; (dry fog - one gallon per 50,000 cubic feet of inner space). For best results, application should always be made in the late evening or early morning. Buildings should be closed as tightly as possible.

STORAGE AND DISPOSAL

- Do not contaminate water, food or feed by storage or disposal.
- Open dumping is prohibited.
- Do not re-use empty container.

PESTICIDE DISPOSAL

"Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance."

CONTAINER DISPOSAL

Metal Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Plastic Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
